 This article is designated for administrators.

About

Learn how to activate the Kaltura Interactive Video Paths feature in the legacy Video Portal and LMS applications.

Configure

1. Go to your Configuration Management console and click on the **Raptmedia** module. You can also navigate to it directly using a link:

https://{your_KMS_URL}/admin/config/tab/raptmedia.

host - [Readonly] Always set to **app.raptmedia.com** .

accountId - Keep empty.

allowedRole - Who can create Interactive Videos? If a role is selected, any higher role will also be able to create Interactive Videos. Choose from the following options:

- Specific users
- privateOnly Role
- admin Role
- unmoderatedAdmin Role

If you select Specific Users, an additional field displays.

allowedRole Specific Users ▾

Who can create Interactive Videos? If a role is selected, any higher role will also be able to create Interactive Videos.

allowedUsers

Select users who are allowed to create Interactive Videos.

[+ Add "allowedUsers"](#)

To add users, click **+Add "allowedUsers"**. An additional field displays.

Click **Select Users/Groups**. In the pop-up box, enter the User ID or user name and click **Submit**. (Only roles that are available on your legacy Video Portal or LMS Video instance may be added.)

Select Users / Groups ✕

Enter user name

Authoring seats - The maximum number of authors allowed to use the Kaltura Interactive Video Paths Media plug-in is determined by the number of seats sold and provisioned on the Kaltura Interactive Video Paths Media platform, whether users are allocated by role or on a user-by-user basis.

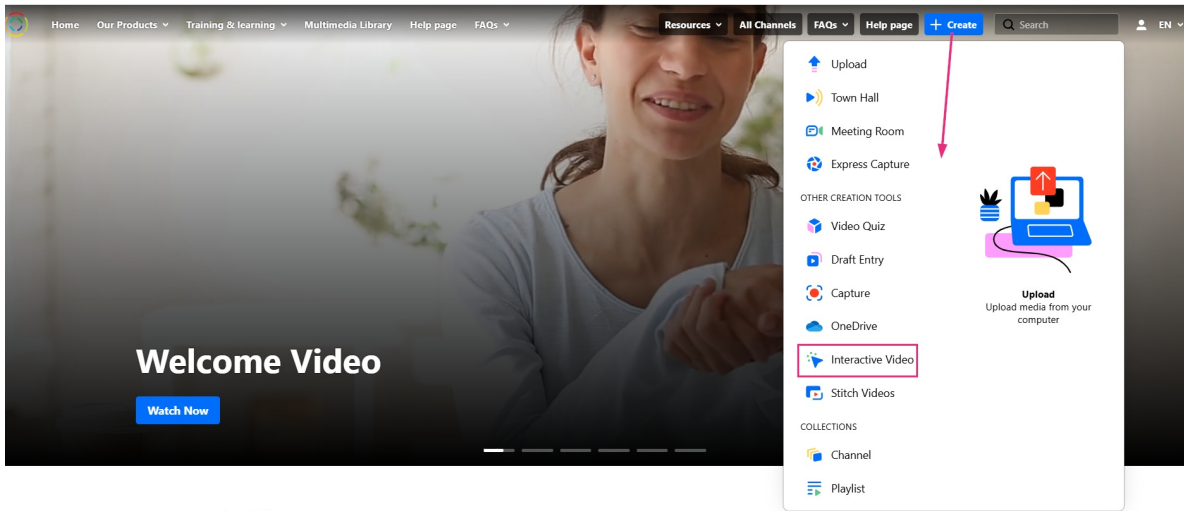

playerId - This will automatically be set to the applications' player ID, which will be used to play Interactive Video Path media.

3. Click **Save**.

Verify your activation

To verify that selected users can create/edit interactive videos, log into your application. **Interactive Video** should be displayed in the **Create** drop-down menu.

Here's an example of the Create menu in the legacy Video Portal.

Here's an example of the Create menu in the LMS Video application.
