Kaltura Extension for Brightspace by D2L Admin - Overview & Exercises (legacy)

Content updated: 02/16/2020

Let's Practice

Login to your Desire2Learn account and to your Desire2Learn Kaltura Application Framework admin page.

Change the Player ID

1. Go to the Kaltura Application Framework Admin page, locate the "Player" module
2. Identify the "playerId" field.
3. Enter the playerID of your choice.
4. Save the changes.
5. Reload your D2L page and see the new player.

Add a Custom Metadata Schema

1. Go to the Kaltura Application Framework Admin page and locate the "Customdata" module.
2. Change the "profileID" to reflect the schema you created in the Rich Media CMS exercises.
3. Change one of the fields and make it a required field.
4. Save the changes.
5. Reload your D2L page and see the new metadata fields when uploading a new entry.

Add a Player to the Browse and Embed option

1. Go to the Kaltura Application Framework Admin page and locate the "Browseandembed" module.
2. Under the "embedSettings" add a new player using the "+ Add embedSizeCutom" option.
3. Fill in the relevant information for the new player.
4. Save the changes.
5. Reload your D2L page
6. Embed a new entry using the rich text editor and see the newly configured player.

Locating Course Videos in Rich Media CMS

1. Select a course in D2L and click on it's Media Gallery
2. Look at the URL bar, you should see after "ou=" a string of numbers ended by this "&" sign - this is your Course ID.
3. Login to the Rich Media CMS using your Rich Media CMS credentials.
4. Go to the Categories tab
5. Search for the course ID.
6. Once the results come in, you should see your course, you can click on the options menu and see all the media entries associated with this specific course.
