

On Demand: Allow Participants to Download Shared Files

Last Modified on 03/27/2025 9:36 am IST

i Legacy notice

This article documents the **legacy KME Room**. For information on the new room, please visit the [new Kaltura Room documentation](#).

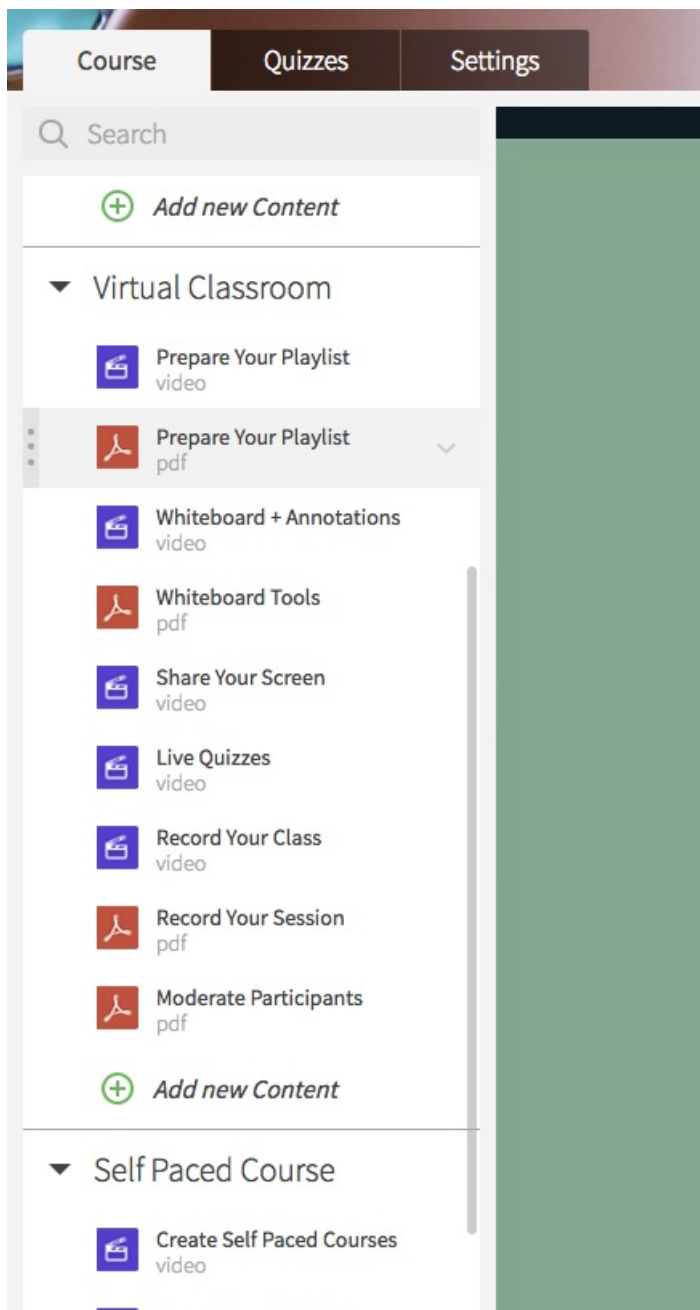

You can allow participants to download shared files by enabling them to download files added to the on-demand course.

Allow Participants To Download Shared Files

By default, files added to an on-demand course are NOT downloadable. To allow participants to download shared files, take the following steps:

Step 1

- Hover your cursor over the file you want to allow your participants to download.

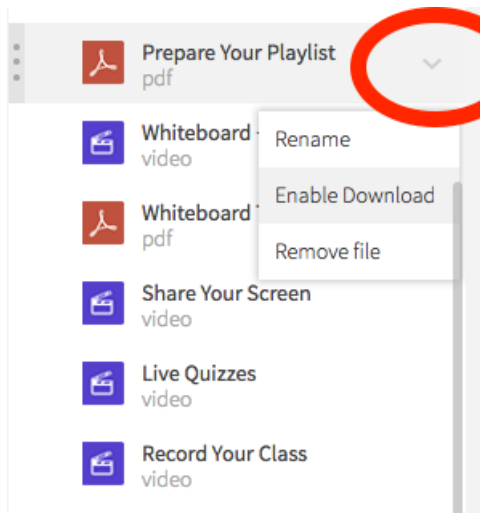

Step 2

- Click the **v** drop down corresponding to the file.

Step 3

- Click the **Enable Download** option.

That's it.

Your participants will be able to download that file directly from the on-demand course.
