On Demand: Allow Participants to Download Shared Files

Last Modified on 04/02/2020 7:50 pm IDT
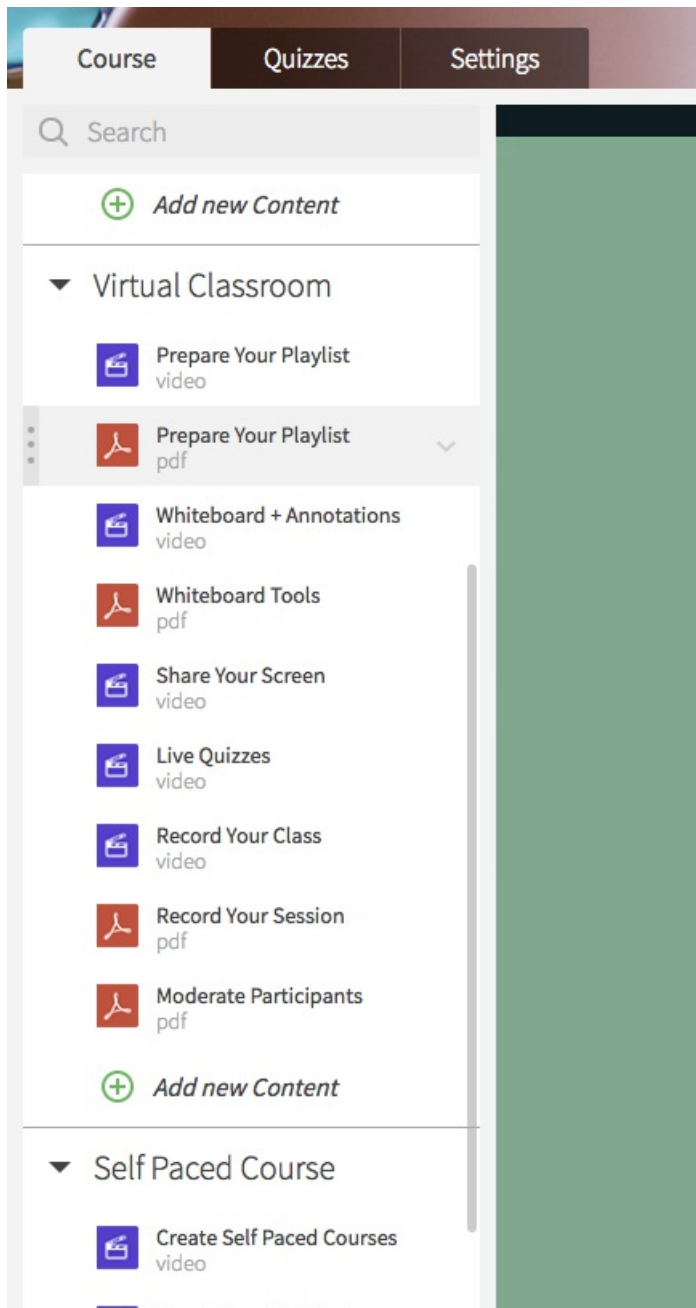

You can allow participants to download shared files by enabling them to download files added to the on-demand course.

Allow Participants To Download Shared Files

By default, files added to an on-demand course are NOT downloadable.To allow participants to download shared files, take the following steps:
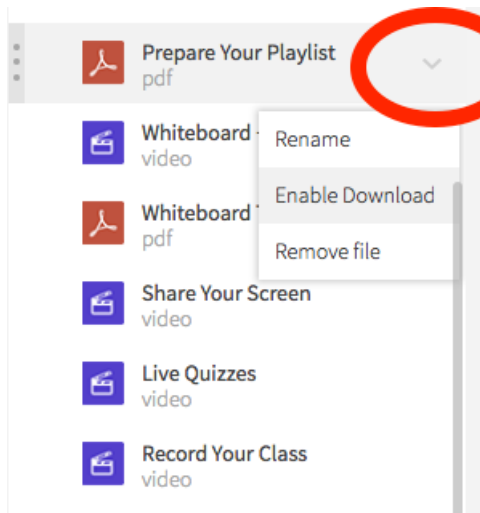

Step 1

- Hover your cursor over the file you want to allow your participants to download.

![Kaltura logo]

Step 2

- Click the **v** drop down corresponding to the file.

Step 3

- Click the **Enable Download** option.

That's it.

Your particpants will be able to download that file directly from the on-demand course.
