

# Create Courses

Last Modified on 10/18/2022 1:58 pm IDT

 This article is designated for administrators.

This article describes how to add courses, how to create an on-demand course and how to create a virtual classroom.

## Create Courses

 Only Admins can create courses.

1. Enter the Course Directory.
2. Click the **Add New Course** button.

The screenshot shows the Kaltura Course Directory interface. At the top, there is a navigation bar with the user's name 'Eran Sakal's Rooms', tabs for 'Courses', 'Users', 'Files', and 'Session Stats', a progress indicator '0%', a 'Help Center' dropdown, and a user profile icon. Below the navigation bar is a search bar labeled 'Search courses' and a page indicator '1 - 4 of 4'. The main content area displays a grid of course cards. On the left, there is a dashed box with a plus sign and the text 'Add new course'. To the right, there are four course cards, each with a blue header image, a title, an instructor name, and two buttons: 'Manage Course' and 'Launch Room'. The courses shown are: 'The Cool Designers Room' (Instructor: Eran Sakal), 'NR2 room' (Instructor: Asif test 22, Eran Sakal), 'Frontend dailies 2022' (Instructor: Yoni Dan Zilberman, Stas Kohut...), and 'Demo room 1' (Instructor: Eran Sakal, garry test).

3. Fill in the **Create Course** form.

Description  
500

Add users

- a. *Course image*- Click the thumbnail to upload a course avatar. This is the image that users will see in the course directory as well as the background banner when entering the course via a direct URL.
- b. *Course name* - Course name is the only required field when creating a course. The course name appears in the course directory as well as on the banner when accessing the course from a direct URL.
- c. *Plan* - Courses that do not have a plan are not accessible to instructors and students. Click the field to display a drop down menu listing the purchased plans available (not currently used by other courses) and select the plan you want to apply.
- d. *Summary* - Short description of the course. Seen when accessing the room in the course directory.
- e. *Description* - Describe the course. Seen by students & instructors in the course directory.
- f. *Add users* - Search through users that you have added to your company/Virtual Classroom. Registered users can access their courses by signing into their Kaltura account instead of through a direct URL.

4. Click **Create**.
