

Annotating from an iPad

Last Modified on 03/27/2025 8:40 am IST

i Legacy notice

This article documents the **legacy KME Room**. For information on the new room, please visit the [new Kaltura Room documentation](#).

How do you moderate a session from your computer while annotating from another device like an iPad?

To annotate on an iPad, you must:

1. Connect into Kaltura as an instructor/moderator from your computer.
2. Simultaneously connect to the same Kaltura Live Room from your iPad as a 'guest', disabling/deactivating your webcam and microphone.
3. Go back to Kaltura from your computer as the moderator and give 'moderator' capabilities to 'guest' user. Check [Set Participant Permissions](#).
 - a. Go to participant list.
 - b. Click on the **v** icon to the right of a person's name or 'guest'.
 - c. Click *Set as moderator* (or strictly give them the ability to Draw On The Whiteboard).
4. An instructor is now capable of being seen and heard from their computer while simultaneously annotating from their iPad.
