i Legacy notice

This article documents the **legacy KME Room**. For information on the new room, please visit the [new Kaltura Room documentation](#).

Moderators use Notes to highlight key live discussion points that all participants can see being written in real time. Notes can then be downloaded as branded PDF's.

Kaltura Live Room Notes are not your basic note taking tool.

- With Kaltura Live Room Notes, moderators can compose notes as session participants view updates in real time. This enables participants to follow along as key discussion points are written down.
- Moderators can even provide note writing permissions to specific participants to enable simultaneous editing options from multiple editors.
- Moderators can create multiple notes that remain accessible within the virtual classroom.
- Kaltura Live Room Notes can be added to Files with a click of a button or downloaded as well-designed, branded PDF reflecting your organization's branding.

Access Notes

Kaltura Meetings Live Room Notes is a right module tool that can be opened similarly to *Chat*, *Participant List*, and *Playlist*.

To access Kaltura Live Room Notes:

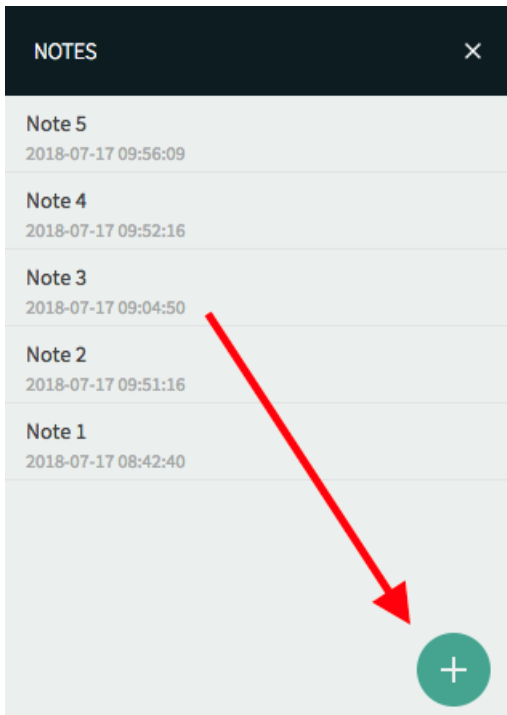

1. Enter your virtual classroom
2. Click **Notes** in the upper bar.

Notes will open on the right side of your screen. Want to get more space to see your note? Dismiss the Chat, Participant List and/or Playlist to expand the view able area of Notes.

Create Notes

When opening Kaltura Live Room Notes for the first time, a new note is automatically created for you. As a moderator, you can immediately start typing. If notes have already been created in the virtual classroom,

then you can add additional notes by clicking the + (plus) button in the bottom right corner of the Notes list.

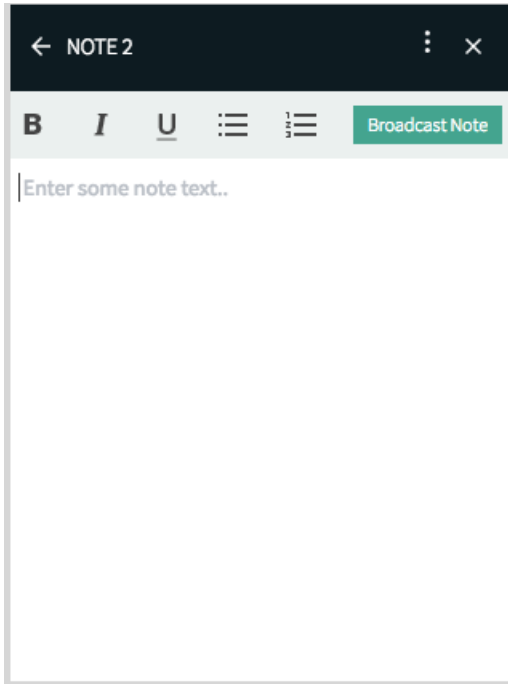

If you are viewing a note and wish to create a new note, then you can do the following:

1. Click the *Back arrow* that displays next to the note name.
2. Click the + button.

Compose Notes

As an instructor, room manager, moderator or participant with note writing permissions, you can add your text to any note while your participants view what you write in real time - like broadcasting a stream of text!

1. Open a note: Select a note name in your list of notes or select the + button to create a new note.
2. Start typing.

Note Formatting Options

- Bold
- Italics
- Underline
- Bulleted List
- Numerical List

You Are Typing! As you type, your participants can see your text as it is being written. If you have multiple editors, then a status banner displays who is typing at that moment.

Broadcast Your Note

As you type your note, anyone viewing the note sees what you are typing in real time. But, how do you get your participants to look at your note? You can actually automatically open the note you are working on with the *Broadcast Note* button.

1. Open a note.
2. Click the **Broadcast Note** button. All participants (except other note writers that are writing in a note) will now see your note opened automatically.

Edit An Existing Note

To edit an existing note, simply select a note from your list of notes.
