

Views: Set A Webcam Participant In Presenter Position

Last Modified on 02/23/2023 8:54 pm IST

Presenter position gives prominence to a specified webcam participant. Setting a presenter helps bring focus to that participant by enabling participants to see the main speaker more clearly. Presenter is a webcam position. Presenters do not get additional permissions.

Set A Webcam Participant As A Presenter

1. Hover your cursor over a webcam participant in the webcam tray.
2. Click the **Presenter** icon to the right of the microphone button.
3. To unset a presenter, simply click the **Presenter** icon again.

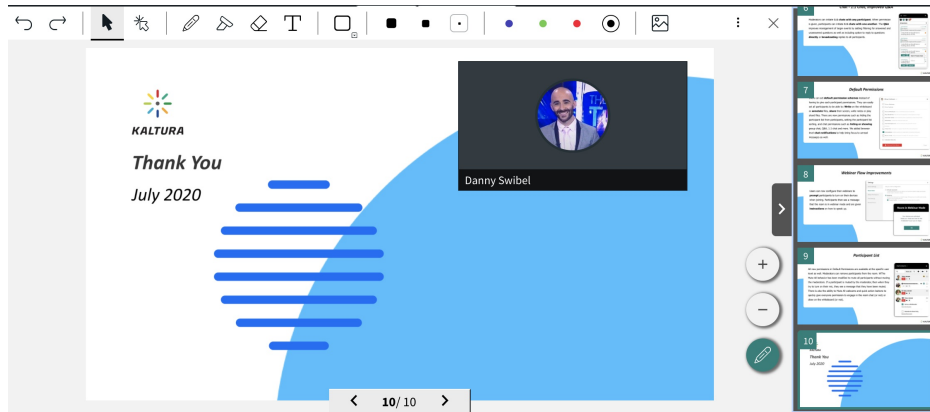

4.

□ There can only be one presenter at a time.

□ The presenter webcam position has two different views:

- **Floating Overlay** - When content is displayed on stage, the presenter webcam floats over the displayed content. Each participant can click and drag the presenter webcam to a position that is least in the way.

- **Full Frame** - When there is no content displayed, the presenter webcam takes up the entire stage.
