

Where are the poll questions stored?

Last Modified on 03/19/2020 10:04 pm IST

Polls questions can be found in the webcasting app itself by clicking on the Settings icon. For more information, see [Kaltura Webcasting Polls](#). Note that the poll questions are available during and after the webcast event and as long the event was not archived.

For more information about Archiving Webcasting Events, see [Managing VOD Creation for Webcasting Events](#).
