How to remove the large play button from a player?

Last Modified on 10/27/2020 11:48 am IST

1. Login to the KMC
2. Go to Studio > Universal Studio
3. Click on the desired player
4. Go to Plugins > UI variables
5. Add the following UI variable:
    a. Key: largePlayBtn.plugin | Value: false
    b. See http://prntscr.com/rdbuqs
6. Save

NOTE: To locate the desired player ID you may want to go to the corresponding admin page and navigate to the player module.
