Here are some tips to increase the success of your Kaltura Meetings Experience:

1. Close any unnecessary tabs or applications.
2. Set up your computer or device close to your internet router.
3. Use a stable internet connection & avoid shared routers or Hotspots.
4. If your connection cannot handle the load, consider Hiding Webcams.
5. Connect your laptop to the electricity. Live rooms, in particular, use camera/audio which use the device CPU and therefore the battery may drain faster.
