Select Your Room Mode - Live Rooms

Last Modified on 03/27/2025 8:41 am IST

> ℹ **Legacy notice**
> This article documents the **legacy KME Room**. For information on the new room, please visit the **new Kaltura Room documentation**.

There are 3 class modes. Decide which mode suits your meeting needs.

- Standard room (previously Virtual Classroom mode)- Each participant automatically joins the room as an "active" live participant with the ability to turn on their camera/audio.
  This mode is great for a meeting, virtual class, or in general any collaborative session of maximum 25 live participants (Note, it can be increased up to 50 upon request).

- Large room (previously Webinar mode) - Only the room host and moderators (up to 10 of them) join the session as "active" participants. All other participants join the session with their camera/audio disabled. The moderator may activate the participant to "Live mode" and allow them open their camera/audio.
  This mode works better for webinars, lectures or in general for larger events of up to 300 participants.

- Extra Large Room Mode - XL room mode is an optional feature providing moderators with the ability to adjust the room to audiences, larger than 300 and up to 700 participants. For more information, see Set Room Mode: XL Room Mode.

A moderator may change the room mode from the Settings page. It is recommended to ask all the participants to refresh their pages in case the room mode is changed while there are participants in the room.

Kaltura Meeting **version NR2**

Set your room configuration.

○ Standard room (Virtual Classroom) - All participants are allowed to enable their webcams and mics.

○ Large room (Webinar) - Only moderators are automatically placed on stage.

☐ Prompt Cam/Mic - Prompt participants to activate their Cam and Mic.

◉ Extra large event for -

| 700 ▾ | participants. | 1 ▾ | presenters located in | Asia-Pacific ▾ | Apply |

Apply these changes to relaunch the room in Large Event mode for up to 700 participants and 1 presenters located in Asia-Pacific.

◉ Standard Mute - Participants can unmute themselves any time.

○ Strong Mute - Participants will require your permission to unmute themselves.

Close

☑ Echo Cancellation - Mute participants during media playback.
