

Moderation

Last Modified on 05/31/2020 2:28 am IDT

This module allows you to make changes to the reasons for moderation text set in the KMC. Please make sure to enable the Moderation plugin in the relevant KMS players via the KMC Studio. See [Moderating Content](#) for more information regarding the KMC moderation flow.

Field	Description
reasonSex	Please provide the reasons LMS users can choose for flagging media. (If none are provided, the default Kaltura reasons will be used)
