

What Performance Tracking and Analytics Does Kaltura Provide After Each Virtual Classroom Live Session?

Last Modified on 04/11/2021 3:55 pm IDT

Kaltura provides the following performance tracking and analytics after each Virtual Classroom class/meeting:

- Quiz Scores - Detailed view for each question/answer, as well as the overall score.
- Attendance data - Time joined, left, and total duration.
- Attention/Focus - Average time the browser was in focus.
- Chat history (Room chat, Q&A chat, and moderator chats. 1X1 chats are not included.)

You can see analytics at the end of a session with all the details above, or export them as separate files.
