

How Can I Send Logs & Receive Technical Support In Kaltura Meetings?

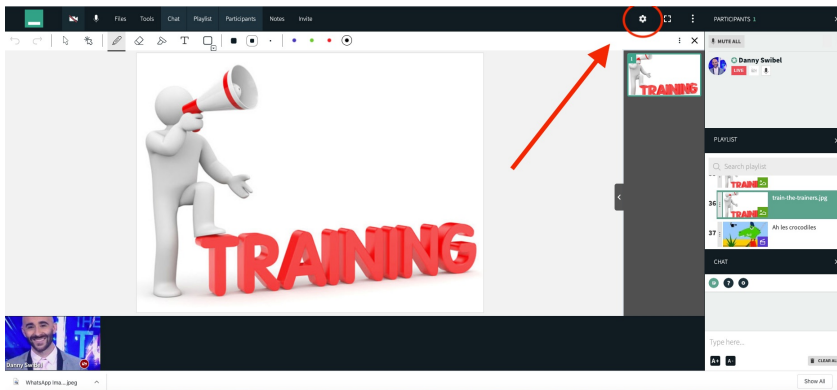

Last Modified on 12/03/2023 10:48 am IST

You may send support logs from inside the Kaltura Meetings live room. Kaltura Customers with an active Support plan (e.g. Silver/Gold/Platinum) should open up a ticket by logging into the Kaltura Customer Care portal (by clicking [here](#)).

How To Send Support Logs

If you are having technical issues during your live session, sending support logs helps our [Customer Care team](#) better serve you.

1. Select **Settings** ⚙️ in the top right of your live classroom.
2. Click **Contact Support** in the button left.
3. Fill in the quick *Contact Support* form.
 - a. Select the checkboxes that apply.
 - b. Enter a custom message with as much detail as possible describing the issue you are experiencing and who is experiencing it. This helps!
 - c. Leave *Send logs* checked. Logs enable us to understand the issue effectively. Choosing not to send the logs will partially inhibit our ability to offer prompt technical support.
4. Click the **Send** button.
