> This article documents the **legacy KME Room**. For information on the new room, please visit the **new Kaltura Room documentation**.

Virtual Classroom does not have the ability to alert you if you are in a breakout room. However, if you have breakout room set to auto-assign, students who enter the main room will be automatically brought into a breakout session. If breakout is set to manual assign, the student will stay in the main room until you go out of the breakout room and into the main room to get them.
