Yes. A participant that joins as a guest may enter whatever name they want. Room moderators can also disable the participant list from view.

The screenshot shows a web interface for joining a session titled "TRAINING FOR ENT". The interface is divided into two main sections: a light blue header and a white content area. The header contains the text "Join as guest". The content area contains the instruction "Enter your name and email to join the session." followed by two input fields labeled "Name" and "Email". Below these fields is a blue button labeled "JOIN THE SESSION". At the bottom of the content area, there is a small line of text: "By clicking Join the Session you agree to our [Terms of Use](#) and [Privacy Policy](#)."
