

# How Long Can a User Stay in Breakout Rooms?

Last Modified on 04/22/2020 6:17 pm IDT

A user may remain in a breakout room until the Instructor clicks on the “End Breakout” button. A user can even log out of the breakout room and log back in at a later time, as long as the breakout room is still active.

**NOTE:** For “Manual Breakout”, a new user will stay in the main room; for “Automatic Assign” a new user will be added to the last breakout room created.
