

Where is the Live Room Recording Saved?

Last Modified on 10/13/2020 8:23 pm IDT

Live Room session recordings are published automatically to the media repository from where the room was launched (a Channel in MediaSpace or a Media Galley in KAF).

You can also find the recording in:

- The room Files tab under the Recordings folder.
 - The My Media repository of the room host (the user who launched the Live Room).
 - The KMC.
-
