

## 3D Player Overlay - Generate App Token

Last Modified on 04/19/2022 4:28 pm IDT

The Brand3D Creator tool must be added to each MediaSpace instance by the Brand3D team. To facilitate this, you must provide the Brand3D team with:

- The partner ID (Kaltura account ID)
- User email address
- App Token ID and App Token generated from the Brand3d module

Find your partner ID in the KMC under Settings > Integration.

Use the following instructions to generate the App Token ID and App Token.

1. Login to your MediaSpace Configuration Management admin site at:

https://[your partner id].mediaspace.kaltura.com/admin

MANAGE CONFIGURATION MANAGE USERS KNOWLEDGE BASE CLEAR THE CACHE GO TO SITE

**Configuration Management** 

Server Tools Backup Configuration	Application			Search Configuration
Global	instanceld	mediaspace2	Unique string to identify that installation of mediaspace. This value can be set	during installation

- 3. In the appToken area, next to 'create', click **Generate App Token.** This action populates the id and hash fields.
- 4. Click **Save**. A message displays confirming your configuration for Brand3d was saved.
- 5. Click **OK**.
- 6. Provide the Brand3D team with the information in the id and hash fields, along with your partner ID (Kaltura account ID) and user email address.

Copyright © 2024 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Once Brand3D receives your email, they will set up the account and email you a password.

After you provide the Brand3D team with the above information, if you ever click **Generate App Token** again (i.e. regenerating the token), your previous token will be overwritten and you must provide the new id and new hash to the Brand3D team.
