

Wochit - Collecting Media

Last Modified on 04/19/2022 4:36 pm IDT

Click the pink **Search Media** button to search for and select footage for your video.

The Wochit Media Library displays.

The Wochit Media Library contains over 200 million assets and is updated daily. Content from our partners (such as AFP, AP, and Getty) is all pre-licensed for your use in any Wochit video. For instance, search the **Editorial** library for footage covering the latest news, or browse through the **Creative** library for stock images and b-roll footage.

In addition, you will find all the content you own and have previously uploaded to MediaSpace in **My Library**.
