

Attachments

Last Modified on 05/18/2020 9:13 pm IDT

Enable this module to:

- Allow media owners to attach files of any type to their media,
- Enable media viewers to download the file before, during or after viewing.

Field	Description
enabled	Enable the Attachments Module.
showOnlyAttachmentType	Enabling this will cause transcript files (created by APIs for example) to not show in the attachments tab.
allowAnonymous	Enabling this will allow anonymous users to view and download attachments.
