

Cssupload

Last Modified on 10/16/2020 5:45 pm IDT

Use this module to upload CSS files to your KMS site.

Field	Description
enabled	Enable the Cssupload Module.
bootstrap	Upload a replacement bootstrap.min.css file to the one in use by KMS. Only useable for Bootstrap based themes.
additional	Upload an additional css file to KMS to include additional classes not defined as part of the standard Bootstrap CSS file.
