

Headermenu module

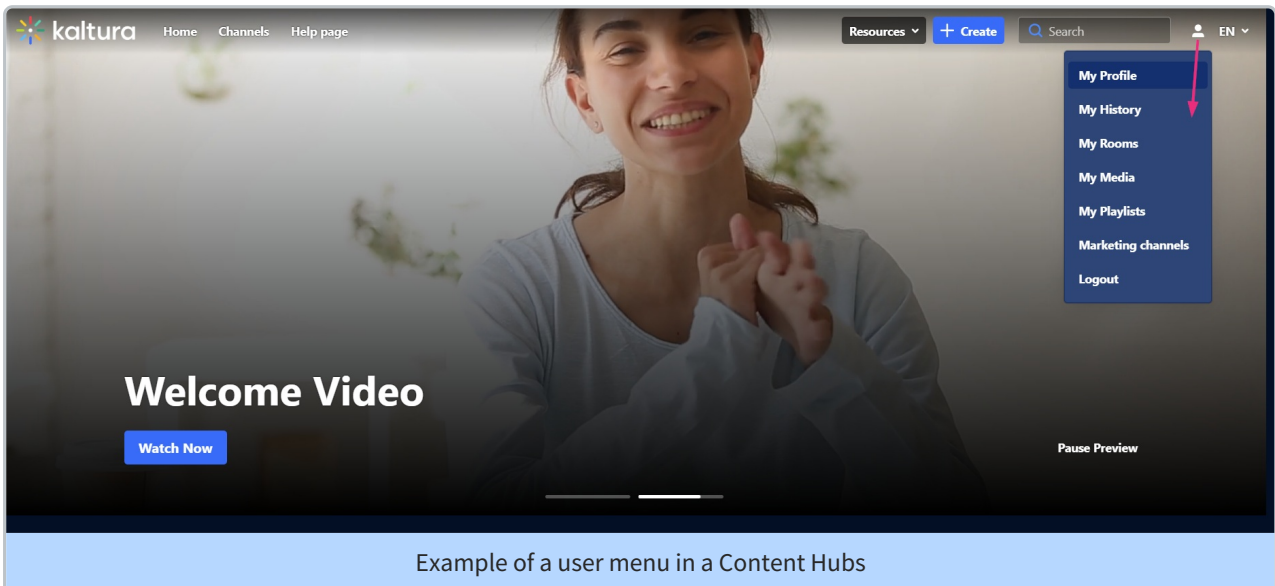

Last Modified on 05/02/2026 11:19 am IDT

 This article is designated for administrators.

About

This module allows you to specify the items visible at the top right of the navigation bar ('header') or within the user drop-down menu, for example, **My Media** or **My Playlists**.

Additionally, you can use it to add a link to your [My Profile](#) page, whether it's accessed through the user menu or directly from the navigation bar.

Enable the module

1. Go to your Configuration Management console, and click the **Headermenu** module. You can also navigate directly using a link:

https://{your_KMS_URL}/admin/config/tab/headermenu.

Search Configuration

Headermenu

enabled Yes No Enable the Headermenu module.

menu

Define the items that are displayed on the top right in the header menu.

1 DELETE

type Type can be My Media, My Playlists, URL, Menu, or My Channels.

label For a URL, enter the URL label. For a Menu, enter the label.

link Enter a URL. The url can link to external sites (should start with http://) or an internal page (should start with /).

sameWindow Yes No

2. Set **enabled** to 'Yes' to enable the module.

Add options to your user menu

1. Configure the following:

- Click the blue **+Add "menu"** button.

A new section displays.

* DELETE

type Type can be My Media, My Playlists, URL, Menu, or My Channels.

label For a URL, enter the URL label. For a Menu, enter the label.

+ Add "menu"

- **type** - Choose one of the options (**My Media, My Playlists, My Channels, My History, My Live Rooms, My Powtoons, My recycle bin, My Content Analytics**) from the drop-down menu.

menu

Define the items that are displayed on the top right in the header menu.

1 **DELETE**

type Type can be My Media, My Playlists, URL, Menu, or My Channels.

label For a URL, enter the URL label. For a Menu, enter the label.

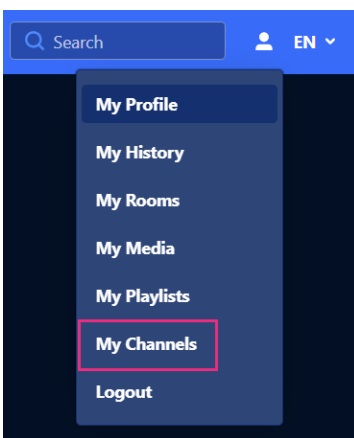

2 **DELETE**

type Type can be My Media, My Playlists, URL, Menu, or My Channels.

My Media
 My Media
 My Playlists
 URL
 Menu
 My Channels
 My History
 My Live Rooms
 My Content Analytics

i The items that appear in your drop-down menu may vary depending on what has been enabled in your instance.

- **Label** - You can leave the label field blank, in which case the menu item will appear in the user menu with the default label (for example, "My Channels," as shown below).

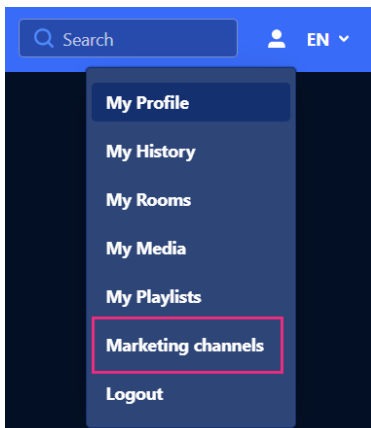

- Or you can enter your own custom label, as shown below.

6 **DELETE**

type Type can be My Media, My Playlists, URL, Menu, or My Channels.

label For a URL, enter the URL label. For a Menu, enter the label.

The custom label will display in the user drop-down menu, as shown below.

To add more items to the menu, click **+Add "menu"** again and repeat the steps above.

2. When you've finished configuring your menu, click **Save**.

Add a custom link to your user menu or navigation

1. Configure the following:

- **type** - Choose **URL** from the drop-down menu.

A new section displays.

type	<input type="text" value="URL"/>	Type can be My Media, My Playlists, URL, Menu, or My Channels.
label	<input type="text"/>	For a URL, enter the URL label. For a Menu, enter the label.
link	<input type="text"/>	Enter a URL. The url can link to external sites (should start with http://) or an internal page (should start with /).
sameWindow	<input type="text" value="No"/>	Select whether link should open in new window (target = _blank) or same window. Applied only to external links (absolute URLs)
linkLocation	<input type="text" value="Header"/>	Select whether link should appear in the Header or in the User Drop Down .

In the new section, configure the following:

- **label** - Enter the URL label (type the name you want to display in the menu)
- **link** - Enter a URL. The URL can link to external sites (should start with http://) or an internal page (should start with /)
- **sameWindow** - Select whether the link should open in new window (target = _blank) or in the same window. This is applied to external links only(absolute URLs).
- **linkLocation** - Select whether the link should appear in the **Header** (the navigation bar) or in the **User drop-down menu**.

2. Click **Save**.

Example

To add **My Profile** to the user menu, configure the URL section as follows:

- **Type** - URL
- **Label** - My Profile
- **link** - /profile
- **sameWindow** - Yes
- **linkLocation** - User Drop Down

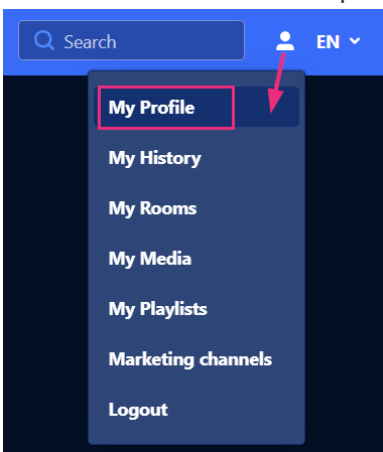

menu

Define the items that are displayed on the top right in the header menu.

1 **DELETE**

type	<input type="text" value="URL"/>	Type can be My Media, My Playlists, URL, Menu, or My Channels.
label	<input type="text" value="My Profile"/>	For a URL, enter the URL label. For a Menu, enter the label.
link	<input type="text" value="/profile"/>	Enter a URL. The url can link to external sites (should start with http://) or an internal page (should start with /).
sameWindow	<input type="text" value="No"/>	Select whether link should open in new window (target = _blank) or same window. Applied only to external links (absolute URLs).
linkLocation	<input type="text" value="User Drop Down"/>	Select whether link should appear in the Header or in the User Drop Down .

The custom link will display in the user drop-down menu as shown below.

To add **My Profile** to the header, in the **linkLocation** field, select **Header**.

menu

Define the items that are displayed on the top right in the header menu.

1 **DELETE**

type	<input type="text" value="URL"/>	Type can be My Media, My Playlists, URL, Menu, or My Channels.
label	<input type="text" value="My Profile"/>	For a URL, enter the URL label. For a Menu, enter the label.
link	<input type="text" value="/profile"/>	Enter a URL. The url can link to external sites (should start with http://) or an internal page (should start with /).
sameWindow	<input type="text" value="No"/>	Select whether link should open in new window (target = _blank) or same window. Applied only to external links (absolute URLs)
linkLocation	<input type="text" value="Header"/>	Select whether link should appear in the Header or in the User Drop Down.

The custom link will display in the user drop-down menu as shown below.

Add a menu to your navigation

1. Configure the following:

- **type** - Choose **Menu** from the drop-down menu.
- **label** - Enter the Menu label (name of the menu)
- Click **+Add "items"**.

DELETE

type	<input type="text" value="Menu"/>	Type can be My Media, My Playlists, URL, Menu, or My Channels.
label	<input type="text" value="Resources"/>	For a URL, enter the URL label. For a Menu, enter the label.
Items	<p>A menu item consists of a label (text) and a link (URL).</p> <p style="text-align: right;">+ Add "Items"</p>	

A new section displays.

items

A menu item consists of a label (text) and a link (URL).

*** DELETE**

label Enter the label for the menu item.

link Enter a URL. The url can link to external sites or an internal kms page.

sameWindow Select whether link should open in new window (target = _blank) or same window. Applied only to external links (absolute URLs)

[+ Add "items"](#)

- **label** - Enter the label for the menu item.
- **link** - Enter a URL. The url can link to an external site or to an internal page.
- **sameWindow** - Select whether the link should open in new window (target = _blank) or in the same window. This is applied to external links only (absolute URLs).

DELETE

type Type can be My Media, My Playlists, URL, Menu, or My Channels.

label For a URL, enter the URL label. For a Menu, enter the label.

items

A menu item consists of a label (text) and a link (URL).

DELETE

label Enter the label for the menu item.

link Enter a URL. The url can link to external sites or an internal kms page.

sameWindow Select whether link should open in new window (target = _blank) or same window. Applied only to external links (absolute URLs)

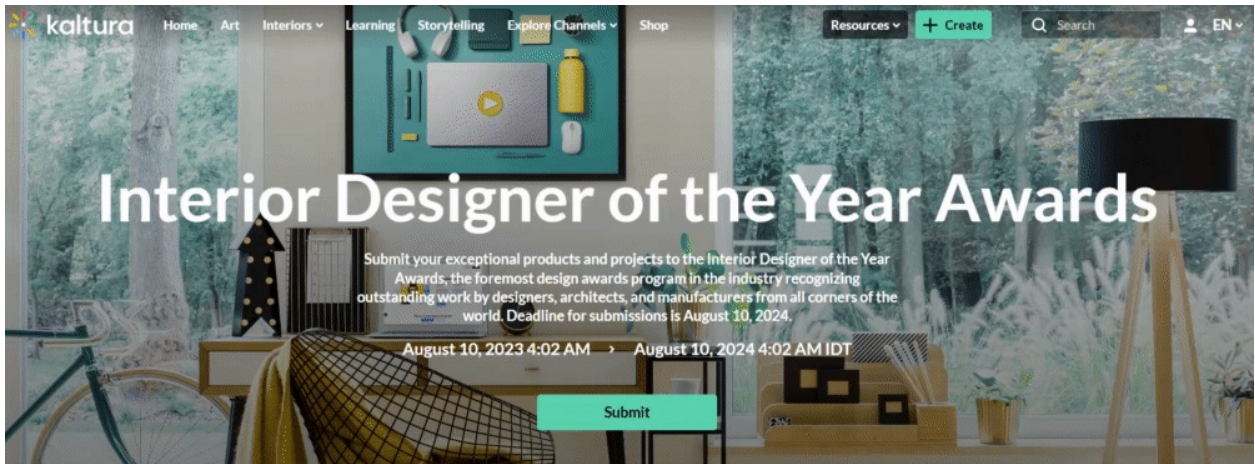

[+ Add "items"](#)

2. Click **Save**.

Example

In our example below, we added a menu called 'Resources':

- **Type** - Menu
- **Label** - Resources
- **link** - <https://knowledge.kaltura.com/>
- **sameWindow** - No

Note that if administrators opt to keep the search bar open for all users in the [Search module](#) settings, any header menu items will be covered by the search bar.
