

# History

The History module makes it easy to find videos you recently watched by allowing the end users to reach the “My History” page and view their watch history. You can control your watch history by deleting your history. You can delete individual items or delete your entire history.

Field	Description
enabled	Enable the History Module.
resumePlayback	Enable the "Resume Playback" feature. This feature will enable an indicator bar below the thumbnail of videos, showing the progress of the user in it.
resumeplaybackOptions	
videoEndPercent	Reaching this percentage of the video or higher will count as 'finished watching' the video
videoEndSeconds	Reaching this amount of seconds before the end of the video or lower will count as 'finished watching' the video
barColorBackground	The color of the progress bar background
barColorDone	The color of the finished progress bar
emptyHistory	Fill in the message the users will see when reaching an empty History page.
deleteAllText	Fill in the message the users will see when clicking on the clear all history button.
showUnlisted	Show/hide 'unlisted' entries from the users history.
supportSecureEmbed	Allow videos in a secure embed to be added to the user's history.

addToHistoryTrigger Field	Choose the way videos are added to the user's history. Play - videos will be added with a play click. View - videos will be added by landing on the video page. (Entries of type image will always be triggered by view event)
