

Annoto

Last Modified on 05/25/2021 11:14 am IDT

NOTE: To configure the Annoto module, make sure you have the key and secret that you received from Annoto.

This module adds Annoto support to the Kaltura players, and Annoto Analytics to channels.

Name	Description
enabled	Set to Yes to enable the module.
APIKey	API Key provided by Annoto for your site.
ssoSecret	Single Sign On secret matching the API Key provided by Annoto for your site.
privateDiscussions	Enables discussions to be private in the scope of Course/Category/Channel. If disabled, discussions on same video entries will be public across Courses/Categories/Channels.
activatedByDefault	If enabled, by default Annoto is active on all the Videos for all Courses/Categories/Channels.
activationEditAllowed	If enabled, Authorized Users will be able to activate/deactivate Annoto for specific Courses/Categories/Channels/Videos.
activationEditAllowedRoles	<p>Who can activate/deactivate Annoto? if a role is selected, any role above it will also be able to activate/deactivate Annoto.</p> <ul style="list-style-type: none"> • Specific Users: whitelisted users or groups created in the Kaltura user and group configuration • privateOnlyRole: this role can add media and upload content to My Media but cannot publish to galleries. • adminRole: this role can contribute content to all categories and upload content. • unmoderatedAdminRole: this role can upload content and bypass moderation (when moderation is enabled for an account). <p>For more information on Roles and Permissions , see Kaltura Roles and Permmisions (https://knowledge.kaltura.com/kaltura-mediaspacekaltura-application-framework-kaf-</p>

	roles-and-permissions).
