Categorytheme module

Last Modified on 08/03/2026 6:21 pm IDT

This module may be used to enable a category manager to choose what is the first tab to load into categories.

Field	Description
enabled	Enable the Categorytheme Module.
playerSet	Create sets of players. Gallery managers will be able to select a player set from the Gallery theme tab to use in all the Galleries' media. A player set contains a list of players, one for each type of media. Media without a player uses the default media player. Click Add Player Set.
playerSetName	Enter a player set name and click Add Player.
entryType	Select the type of entry.
playerId	Enter the PlayerID.
