

## Channelembded module

Last Modified on 06/04/2026 9:18 am IDT

 This article is designated for administrators.

### About

The **channelEmbed module** allows you to control how the share and embed feature behaves within specific channels, providing more granular permissions and flexibility compared to the main [Embed module](#).

With channelEmbed, you can customize embed settings to allow or restrict access based on the channel's context. For example, you can prevent users from grabbing the embed code in private channels while still enabling it for public channels, or limit embed access to published content only.

This module is ideal for managing copyrighted or sensitive content that should only be shared under certain conditions.

Check our [Embed a channel playlist](#) user guide.

This module is only relevant for use with the [Video Portal](#).

### Configure

1. Go to your Configuration Management console, and click the Channelembded module. Or navigate directly using a link:

*[https://{your\\_KMS\\_URL}/admin/config/tab/channelembded](https://{your_KMS_URL}/admin/config/tab/channelembded)*

#### Modules / channels

### ChanneleMBED

**Module Info**

**Info** This module enhances the **Secure Embed** feature in the embed module, and is a prerequisite for turning this module on. Once enabled, you can control if content's embeds can be taken from within the category.

**Note** This is a KMS feature only, and will not work on KAF instances.

<b>enabled</b>	<input type="checkbox"/> Yes	Enable the ChanneleMBED module.
<b>enableEmbedOnByDefault</b>	<input type="checkbox"/> Yes	What should be the default "Enable Embed" in the Channel settings page, affecting whether users can grab an embed of an entry in the context of a channel?
<b>embedRoles</b>	<input type="checkbox"/> Owner Only <input type="checkbox"/> Co-Editor <input type="checkbox"/> Co-Publisher <input type="checkbox"/> Specific Users / Groups <input type="checkbox"/> anonymousRole <input checked="" type="checkbox"/> viewerRole <input checked="" type="checkbox"/> privateOnlyRole <input checked="" type="checkbox"/> adminRole <input checked="" type="checkbox"/> unmoderatedAdminRole	Select one or more roles that can grab an embed if enabled.
<b>allowManagerOverride</b>	<input type="checkbox"/> Yes	Can a channel manager override the default behavior of Enable Embed?

## 2. Configure the following:

**enabled** - Set to 'Yes' to enable the module.

**enableEmbedOnByDefault** - Set to 'Yes'.

**embedRoles** - Select one or more roles that can grab an embed code if enabled. Choose from the following options:

- owner only
- co-editor
- co-publisher
- specific users / groups
- anonymous role
- viewer role
- private only role
- admin role
- unmoderated admin role

**allowManagerOverride** - Set to 'Yes' to allow a channel manager to override the default behavior of 'enable embed'.

- Click Save.

## User experience

When enabled, a checkbox appears on the channel details page, allowing the channel manager to toggle the setting as needed.

## Edit Training channel

 Enable Embed Grab  
 Enable Newrow Live Room

When an end-user attempts to grab an embed of an entry from a channel that prevents embed grabbing, the following message is displayed: *Grabbing of this content is possible only from locations which allow it. Please see the \*Appears In\* field under the Details tab for potential locations which may allow publishing. If no allowing location is found, please contact your administrator, or reach out to the content owner directly.*

**In order to view your interactive video in the player, you need to hit the “Build Project” button within the interactive video editor.**
