This article is designated for administrators.

About

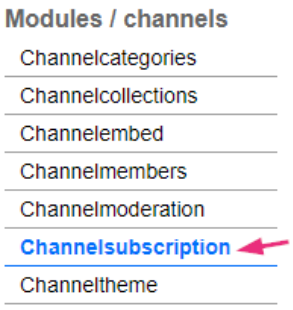

You can enable the **channelsubscription** module so users can subscribe to channels and get email notifications for new content and updates.

Make sure to also enable the emailnotifications module and check the "Entry was added to channel" option in **Manage Notifications**.

Channel managers need to enable subscriptions on the channel edit page. For more information, see our article Manage channel subscribers.

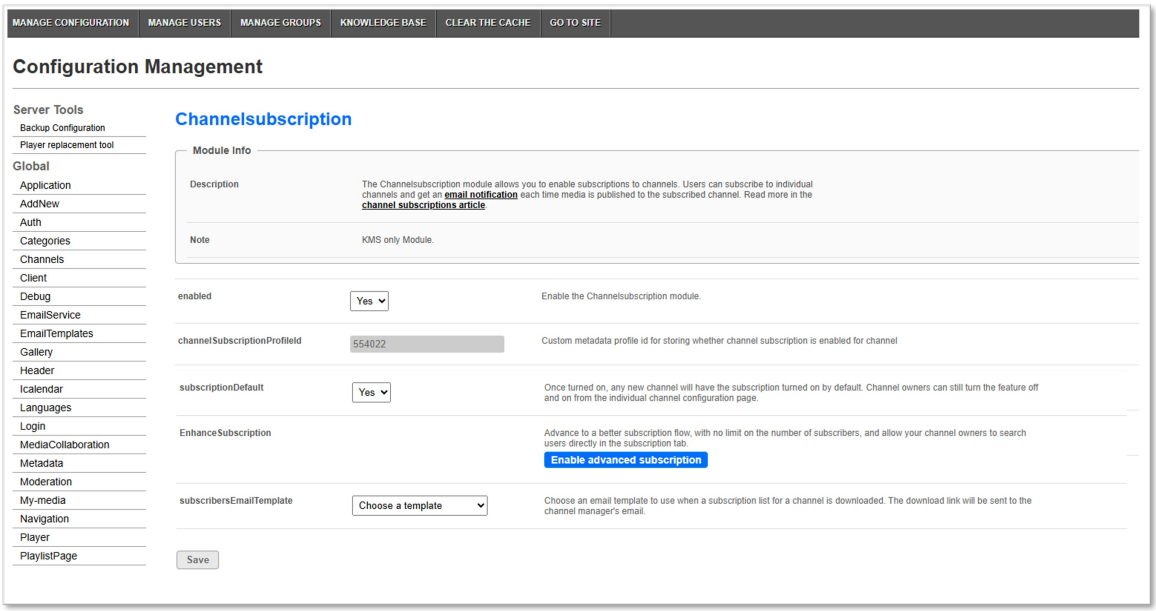

Configure

1. Go to your Configuration Management console, and navigate to the **Channelsubscription** module. You can also navigate directly: https://{your_site_URL}/admin/config/tab/channelsubscription.

The Channelsubscription page displays.

- 2. Configure the following:

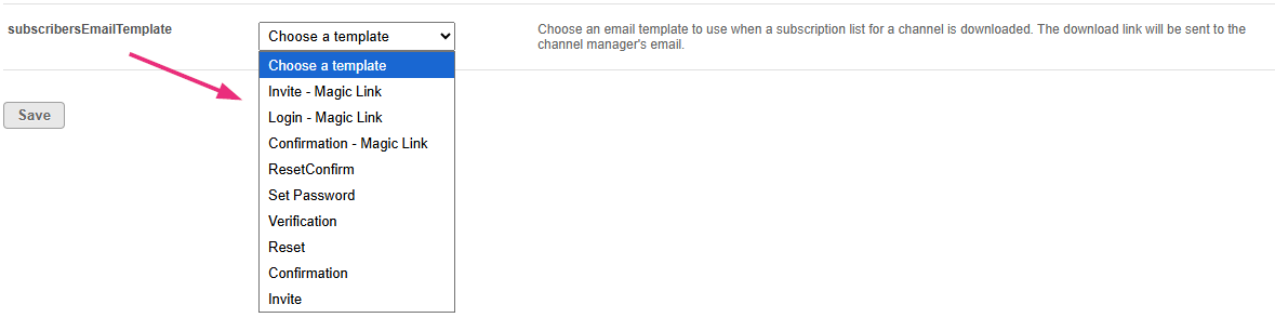

enabled - Set to 'Yes' to enable the module.

subscriptionDefault -Set to 'Yes' to enable subscriptions by default for new channels.

EnhanceSubscription - Click **Enable advanced subscription** to enable enhanced subscriptions. Once enabled:

- New channels automatically use the enhanced subscription model.
- Existing channels continue to use the legacy subscription model until upgraded.
- Channels can support more than 5,000 subscribers.
- Sites using the Theming-based channel edit page also provide enhanced subscriber management capabilities, including subscriber search, pagination, and downloadable subscriber lists.

subscribersEmailTemplate - Select the email template used when subscriber lists are delivered by email.

Templates are configured in the EmailTemplates module.

The download link is sent to the channel manager's email address.

Channel owners can still turn the subscription feature on and off from the individual channel configuration page. See Create a channel to learn more.

3. Click **Save**.
