This article is designated for administrators.

Supported in **legacy Video Portal** only.

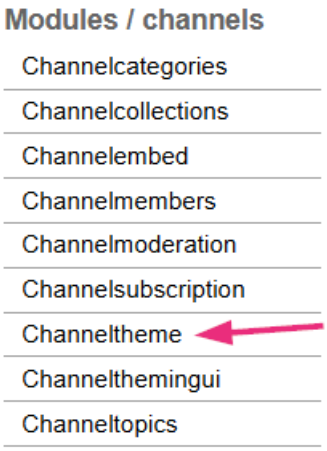

About

This module is configured to allow channel managers to:

- Set a theme for their channel.
- Enable a carousel and set the carousel interval for the channel
- Select which players to use for different media types in the channel.
- Select the first tab in the channel.
- Choose a theme preference.

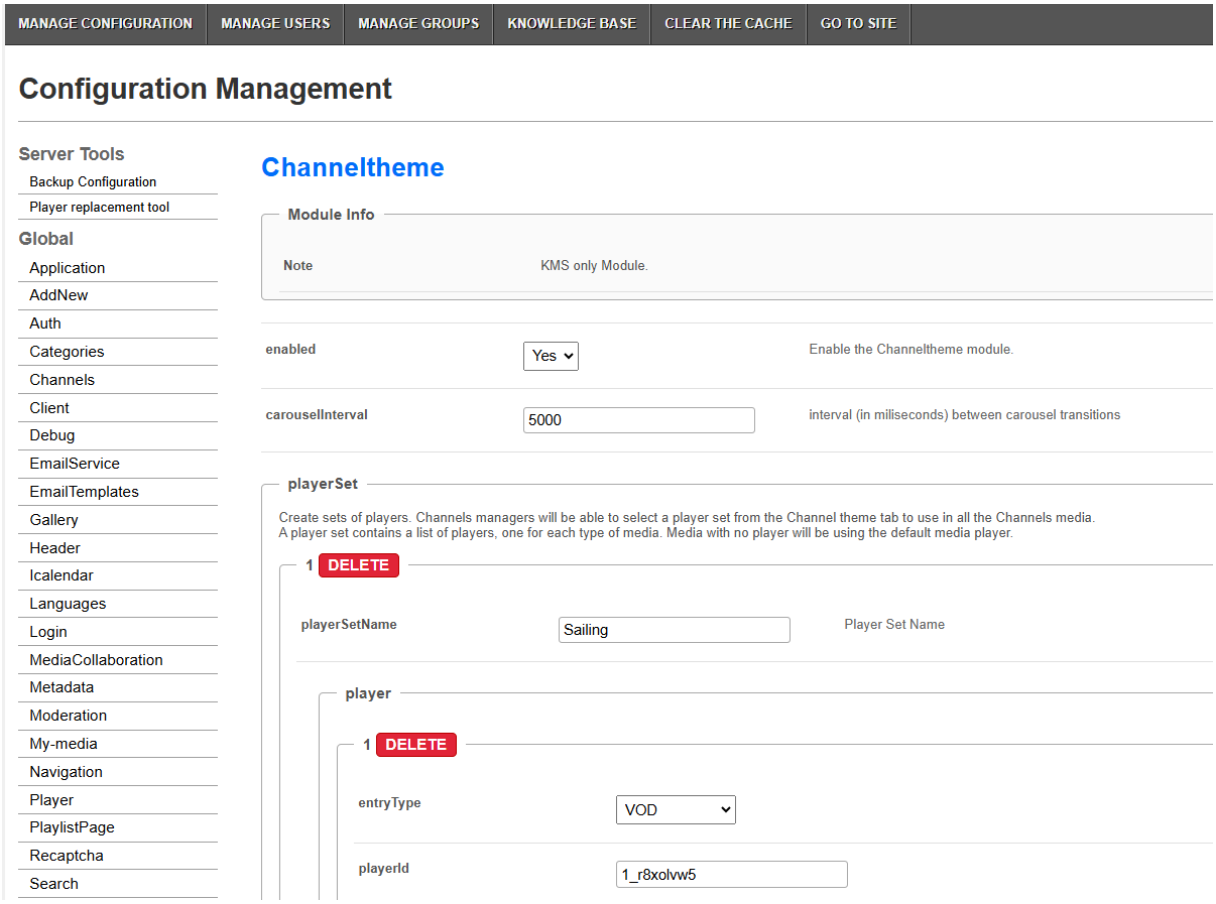

Configure

1. Go to your Configuration Management page, and click the **Channeltheme** module. You can also navigate directly using a link: https://{your_KMS_URL}/admin/config/tab/channeltheme.

The Channeltheme page displays.

2. Configure the following:

enabled - Set to 'Yes' to enable this module.

carouselInterval - Enter the interval (in milliseconds) between carousel transitions. The default time is 5 seconds.

playerSet

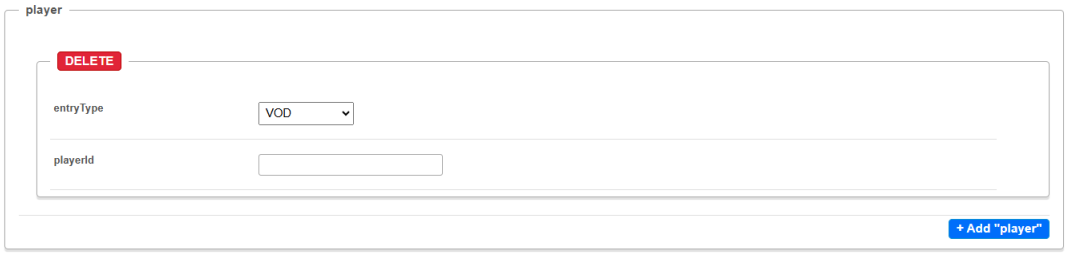

Create sets of players. A player set contains a list of players, one for each type of media. Media without a set player uses the default media player.

Click **+Add "playerSet"** at the lower right to create a custom player set. An additional field appears. Configure the following:

- **playerSetName** - Enter a name for the player set and click **+Add "player"**.

  An additional field displays:

- **entryType** - Select the entry type from the drop-down options:
  - VOD
  - Quiz
  - Audio
  - Playlists
  - Document
  - Draft
  - Image
  - Webcast/Live
  - Meeting
  - Rapt media
- **playerId** - Enter the player Id for the specified entry type.

3. Click **Save**.

After enabling the Channeltheme module, the **Theme** tab is displayed on the channel's edit page, on your Video Portal.

See Edit a channel in Video Portal for more information.
