

Channeltheme

Last Modified on 01/25/2024 2:42 pm IST

 This article is designated for administrators.

 Supported in **KMS Video Portal** only.

About

This module is configured to allow channel managers to:

- Set a theme for their channel.
- Enable a carousel and set the carousel interval for the channel
- Select which players to use for different media types in the channel.
- Select the first tab in the channel.
- Choose a theme preference.

Module Configure

enabled - Set to Yes to enable this module.

carouselInterval - Enter the interval (in milliseconds) between carousel transitions. The default time is 5 seconds.

The following graphics demonstrate the **enabled** and **carouselInterval** settings.

Channeltheme

enabled	<input type="text" value="Yes"/>	Enable the Channeltheme module.
carouselInterval	<input type="text" value="5000"/>	interval (in milliseconds) between carousel transitions

playerSet - Create sets of players. A player set contains a list of players, one for each type of media. Media without a set player uses the default media player.

Click **+Add "playerSet"** to create a custom player set.

- **playerSetName** - Enter a name for the player set and click **+Add "player"**.
- **entryType** - Select the entry type from the drop-down list.
- **playerId** - Enter the player Id for the specified entry type.

The following is an example of a **playerSet** configuration created in this module.

playerSet

Create sets of players. Channels managers will be able to select a player set from the Channel theme tab to use in all the Channels media. A player set contains a list of players, one for each type of media. Media with no player will be using the default media player.

playerId

Delete - Click to delete the player configuration.

Delete - Click to delete the playerSet configuration.

The following graphic demonstrates a **Channel carousel**.

App Configure

After enabling the **Channeltheme module**, the Theme tab is displayed on the Channel's Edit page, on your MediaSpace site.

In the Edit Channel page, Channel Manager may select the **playerSet** created in this module.

The following graphics demonstrate the Theme tab setting:

Edit Education

Details **Theme** Playlists Users

Enable channel carousel: Set to enable the channel carousel

First tab: Site default
 Select which tab should show first in the channel.

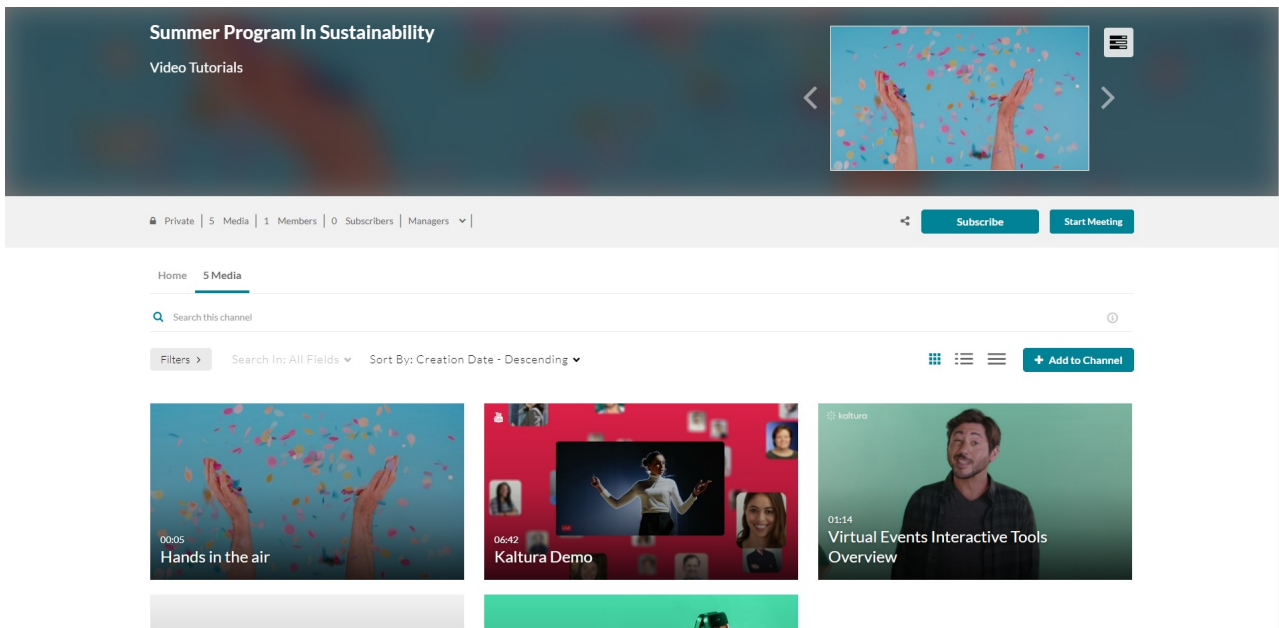

Channel Player Set: Site Default Players
Site Default Players to use as the default for media in this channel.
Player with download

Theme Preference: Category theme precede Ent
 Choose which theme should take precedence in case where a themed entry is published to this channel.

Submit

To learn more about the user's capabilities in the Theme tab, please go to [Managing a Channel in Kaltura MediaSpace](#).

The following graphics demonstrate a themed channel.
