

Hostedfeaturedmedia

Last Modified on 06/04/2020 12:06 pm IDT

This module is used for Kaltura Video Tool for Blackboard only.

| Field | Description |
|--------------------|---|
| enabled | Enable the Hostedfeaturedmedia module. |
| playerId | Custom player ID to use for playing media inside the featured media carousel. If this value is empty default player ID will be used. |
| carouselItemsLimit | The maximum number of featured items to render in the featured carousel. If this value is empty or set to 0 all featured items will be rendered in the carousel. If there are more featured items selected than the limit value, only the first n of them will be rendered in the carousel. |
