Hostedfeaturedmedia

This module is used for Kaltura Video Tool for Blackboard only.

Field	Description
enabled	Enable the Hostedfeaturedmedia module.
playerId	Custom player ID to use for playing media inside the featured media carousel. If this value is empty default player ID will be used.
carouselItemsLimit	The maximum number of featured items to render in the featured carousel. If this value is empty or set to 0 all featured items will be rendered in the carousel. If there are more featured items selected than the limit value, only the first n of them will be rendered in the carousel.
