

Kaltura MediaSpace Setup for Monetizing a Specific Video

Last Modified on 06/08/2020 7:12 pm IDT

Using the InPlayer Module, content owners can monetize per title within their MediaSpace instance via both PPV and SVoD models. This article describes how to enable and configure the InPlayer module.

1. Follow instructions in Section 1 of [Kaltura MediaSpace User Manual](#) to log into KMS Admin (by going to your KMS URL and adding /admin at the end).
2. Login using your Kaltura user ID and password.
3. Click **Sign In**. The Configuration Management Section of KMS displays.

The screenshot shows the 'Configuration Management' page in KMS Admin. The 'Application' section is active, displaying various configuration fields:

- instanceId:** 1756361 mediaspace.kaltura.com
- privacyContext:** MediaSpace
- userRoleProfile:** 9503941
- title:** Kaltura MediaSpace
- footer:** MediaSpace™
- forceIECompatibilityMode:** Yes
- theme:** (empty dropdown)
- languageConfiguration:** Single Language Instance
- language:** English - en
- enableLike:** Yes
- enableWebcam:** No
- enableEntryTitles:** Yes

4. In the list of configurable items on the left of your screen, locate and click on Inplayer. The Inplayer module will be crossed out because it is disabled by default.

Inplayer

The screenshot shows the 'InPlayer' module configuration page. It includes a 'Module Info' section and a 'Configuration' section:

Module Info: Configuration (You can monetize your Mediaspace videos with InPlayer's paywall. Please enable this module, and set your Merchant UUID which you can find it [here](#).)

Configuration:

- version:** 1.0.0
- enabled:** No
- MerchantUuid:** (empty text field)
- MonetizeContent:** adminRole
- ApiURL:** Staging

A 'Save' button is located at the bottom left.

NOTE: If this module is not in your KMS application, please contact your Kaltura representative about adding it.

5. In the enabled pull down list, select **Yes**.
6. In the MerchantUuid field, type your InPlayer merchant UUID. To find your InPlayer merchant UUID, go to your InPlayer account at <https://dashboard.inplayer.com/account/details/details> and copy it from there.

7. In the MonetizeContent pull down list, select the minimal role that can monetize content, or choose a specific user(s) or user group(s).
 8. In the ApiURL pull down list, select Staging or Production based on the environment you use with InPlayer (demo or live account).
 9. Click **Save**. You receive a notice that your configuration for Inplayer was saved and the cache was cleared.
