This article provides information on the Kaltura Media Search in KMS applications. For Administrative information on the search in KMS applications see the [Kaltura Search Module - Administrator's Guide](#) article.

Types of Search Pages

You can use the Kaltura Media Search in many of the KMS pages using the magnifying glass.

There are 4 types of search pages available:

- [Global Search](#)
- [Media Search](#)
- [Channels Search](#)
- [Galleries Search](#)

Global Search

The Global Search page may be reached from the top right KMS Header menu magnifying glass. This unified search page contains not only media results, but also results for galleries and channels.

The Global Search display page is configured by your system administrator. You may need to click the magnifying glass to open the search bar, or the search bar may be set to “Always Open” by your administrator.

The Global Search page contains:

- [• Media Results](#)
- [• Channel Results](#)
- [• Gallery Results](#)

Media Results

All media results (video, audio, image, etc.) containing the keywords are displayed on the Media Results section.

More information may be found in the [How to Read the Search Results](#) and [Search Filters](#) sections.

Channel and Gallery Results

On the right side of the page, a side bar displays with MediaSpace Channels and Galleries results.

3 Galleries found

- [Earthworm](#)
- [Caterpillar](#)
- [Welcom to the Jungle](#)

[Go to Gallery Results](#)

The top three results are displayed in the results side bar per channels/galleries, with an indication of the number of channels/galleries found. If there are more than three results, you may click on the “Go to Channel/Gallery Results” to access the [Channels Search](#) or [Galleries Search](#) pages.

You can collapse the side bar using the collapse button  and expand it back using the expand button 

Media Search

The search magnifying glass icon is available in the following pages:

- Global Search
- My Media
- Channel/Gallery pages
 - You will find the search icon:
 - When searching for content within each channel and gallery
 - When adding content to the channel and gallery
 - When browsing the moderated content (pending tab)
- Media page - search in video's captions if enabled
- My History page (KMS)

For each page: When searching, the media view is replaced with the search results when a keyword is entered and the

display page capabilities remain the same. For example, the Approve and Reject buttons in the Pending tab are displayed for the returned results.
