

Setting User Permissions In LMS (To Connect To Live Room)

Last Modified on 03/27/2025 9:30 am IST

i Legacy notice

This article documents the **legacy KME Room**. For information on the new room, please visit the [new Kaltura Room documentation](#).

Your students and instructors should already have set roles in your institution's LMS. After the [Newrow module](#) is enabled, a system administrator must set permissions to allow access to the live room.

Setting User Permissions In LMS

To set the permissions that will allow users to initiate a live room from media gallery, you must enter the KAF admin page and assign permissions.

1. Enter the KAF admin page.
2. Click *hosted* module (you can search for it in the search box or scroll down and click on it in the right bar).
3. Scroll down to the *ItiRolesMapping*.
4. Click the drop down arrow next to *kmsContextualRole*, which will enable the administrator to control whether these users, who are mapped with a specific LTI role and KMS role, will be able to start a meeting or join a meeting.

1 **DELETE**

ItiRole	<input type="text" value="Learner"/>
kmsRole	<input type="text" value="privateOnlyRole"/>
kmsContextualRole	<input type="text" value="CONTRIBUTOR"/>
allowedSharedRepository	<input type="text" value="No"/>

Members & Contributors will be able to join the room and will have a student view inside the room. Moderators and Managers will be able to start/initiate the live room

and will have an instructor view inside the room.
