

What hardware can Kaltura Lecture Capture be used with?

Last Modified on 07/23/2020 1:04 am IDT

Kaltura Lecture Capture is a software-based solution that runs on standard, off-the-shelf PCs. The software is supported on Windows 7 and up OS. Mac OS is currently not supported. For additional details see the [Kaltura Lecture Capture - Minimum Software and Hardware Requirements for Recording](#).

Kaltura Lecture Capture records in full-HD from a variety of USB cameras, professional HD cameras, PTZ cameras and more. Cameras can be connected to the computer using a capture card or directly via USB.

Kaltura Lecture Capture also ingests from any lecture capture hardware using the Open Capture Standard.
