

Where can I find my Kaltura Lecture Capture recording?

Last Modified on 02/26/2025 12:11 am IST

Users can view the recording entry in their personal My Media repository. The My Media link is typically located on the course navigation panel, however, depending on your account setup, you may access My Media differently. Refer to the article, [My Media in Canvas](#) for information on accessing and working with My Media in Canvas, for example. See your Kaltura Administrator for further information on how your specific account is configured.

Users can also [share the recording to their relevant courses or channels](#) and [embed it directly into their LMS/CMS website](#).
