

Enable Newrow Module (Kaltura Meetings) For Live Rooms

Last Modified on 03/27/2025 9:30 am IST

i Legacy notice

This article documents the **legacy KME Room**. For information on the new room, please visit the [new Kaltura Room documentation](#).

In order to have access to the Kaltura Meetings live room, the Newrow (Kaltura Meetings) Module must be enabled in the Configuration Management backend page by Kaltura Mediaspace and Kaltura Application Framework applications administrators.

Enable the Newrow (Kaltura Meetings) module

1. Login to the MediaSpace/KAF admin page (<MediaSpace site Url>/admin)
2. Type in *Newrow* in the search bar.
3. Go to *enabled* and click *Yes*.

When the **Newrow** module is enabled, all users can enter the Kaltura Live Room from the Media Gallery/Channel. A 'Launch Live Room' button is displayed next to the 'Add Media' button. You have the ability to control if the button is displayed by default or not.

Please contact your Kaltura representative to enable the **Newrow** module if it is not displayed in your MediaSpace application.

The screenshot shows the 'Configuration Management' interface for the 'Newrow' module. The 'enabled' dropdown menu is set to 'Yes', which is circled in red. A red arrow points to the 'Newrow' search bar at the top right of the configuration page.

Module Info	Configuration Options
version: 3.6	newrow/enabled
Description: Newrow Module allows you to open a Real Time Room from the Kaltura Media Gallery, User Private Room and from Newrow KAF by Kaltura Resources (Check NewrowKaf Module). The Newrow Live Room enable you to play Kaltura content in the room and automatically upload recorded session to Kaltura.	newrow/newrowBaseUrl
Setup Guide: To complete Newrow Setup you just need to enable the Newrow module. All the configurations and account creation on Newrow's side has been done automatically by enabling the module. In settings you have the ability to open Newrow in a new browser tab by setting the newrowOpenInNewTab to Yes. If not, then the Newrow Room will open within the Kaltura page.	newrow/newrowOpenInNewTab
Integration: When the Newrow module is enabled, all users will be able to enter the Newrow room from Media Gallery / Channel. A 'Launch Live Room' button will be shown next to the 'Add Media' button. You have the ability to control if the button will appear by default or not. In the Live Room you will be able to Search & Play Kaltura Content synchronously with all the participants by clicking 'Tools' -> 'Kaltura'. If user decides to record the session, the final recording will be uploaded to the related Media Gallery / Channel. Newrow implement KAF endpoint that launch Live Room by Kaltura Resource ID or Kaltura Event ID (Check NewrowKaf module for more info).	newrow/enableLiveRoomButtonByDefault
XapiIntegration: Newrow support xAPI Integration for Newrow Quiz Results. User join, User left. The functionality need to be set by Newrow Administrator.	newrow/enableUserPrivateLiveRoom
enabled: Yes	newrow/newrowAccountOwnerEmail
	newrow/allowedUsersOrRoles
	newrow/allowedUsersOrGroups
	newrow/overrideNewrowLogo
	newrow/enableMultiplePersonalRooms
	newrow/metadataProfileId
	newrow/roomLevelInterval

Configuration Options

Administrators of an organization can adjust the settings of how Kaltura Meetings is accessed and configured.

Name	Description	Required
<i>Enable</i>	Set “Yes” to enable the module.	-
<i>newrowBaseURL</i>	Default “ https://smart.newrow.com/ ” is entered automatically.	Yes
<i>newrowOpenInNewTab</i>	Set to “Yes” to automatically launch Newrow in a new tab. Launching the real time room in its own tab is the recommended experience. Set to “No” to launch Newrow as an embedded experience.	-
<i>domain</i>	Choose which domain should the meeting room URL be.	
<i>enableLiveRoomButtonByDefault</i>	When set to “Yes”, the Launch Live Room button is displayed in all Channels/Media Galleries. This default setting can be overridden in the Channel/Media Gallery settings.	Not relevant for KAF

<i>enableUserPrivateLiveRoom</i>	if set to “Yes” then KMS private users are able to open their own personal Newrow room from the Header user menu.	-
<i>newrowAccountOwnerEmail</i>	Set the email address of the Kaltura account owner to align them with Newrow.	Yes
<i>allowedUsersOrRoles</i>	Who can launch Newrow private live room and enable live room in channels? if a role is selected, any role above it will also be allowed.	-
<i>overrideNewrowLogo</i>	If set to yes, the KMS logo will be used inside the Newrow application. Default is 'Yes'.	-
<i>enableMultiplePersonalRooms</i>	If set to yes, allowed user (depends on 'allowedUsersOrRoles' configuration) will be able to create and access multiple personal virtual rooms. The default is 'No'.	Not relevant for KAF
