

Is there a limit to the number of rules per KES, or in total?

Last Modified on 08/06/2020 5:17 pm IDT

Due to processing considerations, the complete set of routing rules for an account cannot exceed 16 megabytes. In most cases, this is sufficient for well over 100,000 rules. There is no separate limit to the number of rules for a single KES.

If you plan to use more than 100,000 rules, please consult with your assigned Kaltura engineer or with Kaltura Customer Care.
