

Launch Kaltura Capture

Last Modified on 12/07/2021 8:59 pm IST

☰ To Launch Kaltura Capture

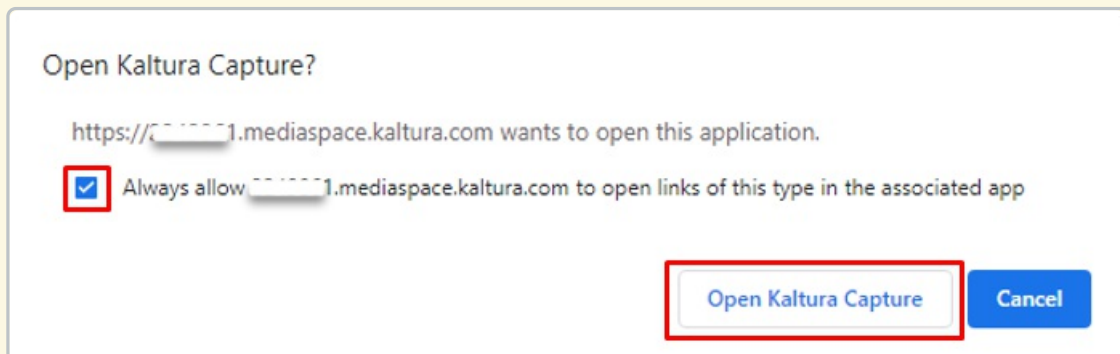

1. Select **Kaltura Capture** from the **Add New** menu.

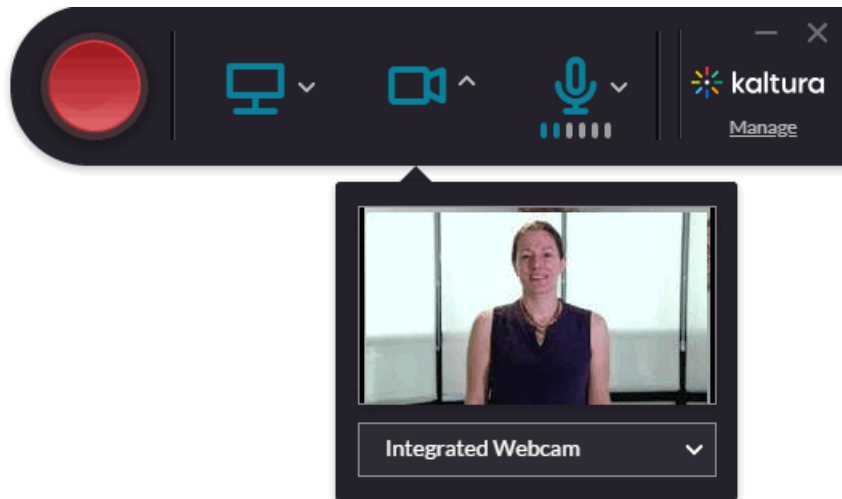

2. You will be redirected to the download page, however, if the application is already installed it can launch automatically and you can start recording.

NOTE: Upon the first time launching the app, you will be prompted with a pop-up message to allow opening the Kaltura Capture application.

To enable launching the Kaltura Capture application automatically, check the box next to "**Always allow 12345.mediaspace.kaltura.com (<https://12345.mediaspace.kaltura.com/>) to open links of this type in the associated app**", then click "**Open Kaltura Capture**".

3. The Kaltura Capture application is displayed.

To learn how to set up your recording inputs, see [Kaltura Capture - Recording Options](https://knowledge.kaltura.com/help/kaltura-capture-recording-options) (<https://knowledge.kaltura.com/help/kaltura-capture-recording-options>).
