

What kind of third party player plugins does Kaltura offer?

Last Modified on 08/26/2020 11:24 pm IDT

Kaltura supports industry standard VAST 3.0 and VPAID 2.0 which is commonly supported among networks such as: Tremor Media, Adap.tv, YuMe, FreeWheel, DFP, EyeWonder, and AdoTube. You can find more information about Kaltura's generic Ads player [here](#).
