

## How do I retrieve the Partner ID, API Admin Secret and API User Secret?

Last Modified on 01/13/2026 12:55 pm IST

To retrieve account information including the account partner id, user and admin API secret keys:

1. login to Kaltura Management Console,
2. Open the **Settings** tab
3. Select the **Integration** sub-tab.

For more information see: [Account information in KMC](#)
