About

You can copy a video quiz to create a new quiz based on an existing one.

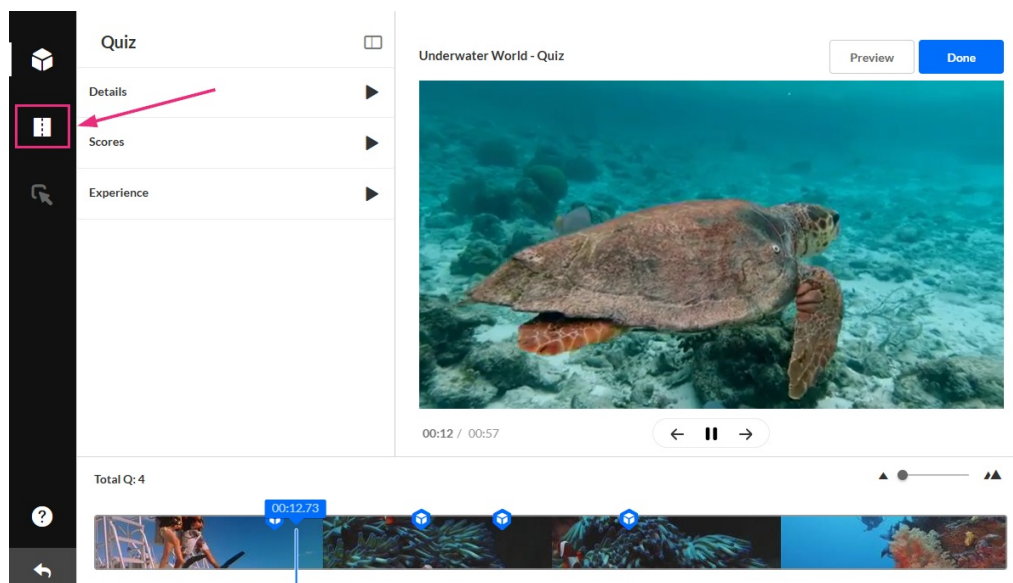

- Only the owner or a co-editor of a quiz can create a copy.
- YouTube videos and YouTube video quizzes can't be copied because they aren't supported by the Video Editor.
- If a quiz has already been submitted by participants, you can create a copy of the quiz, but you can't save changes to the original quiz.

Access the quiz editor

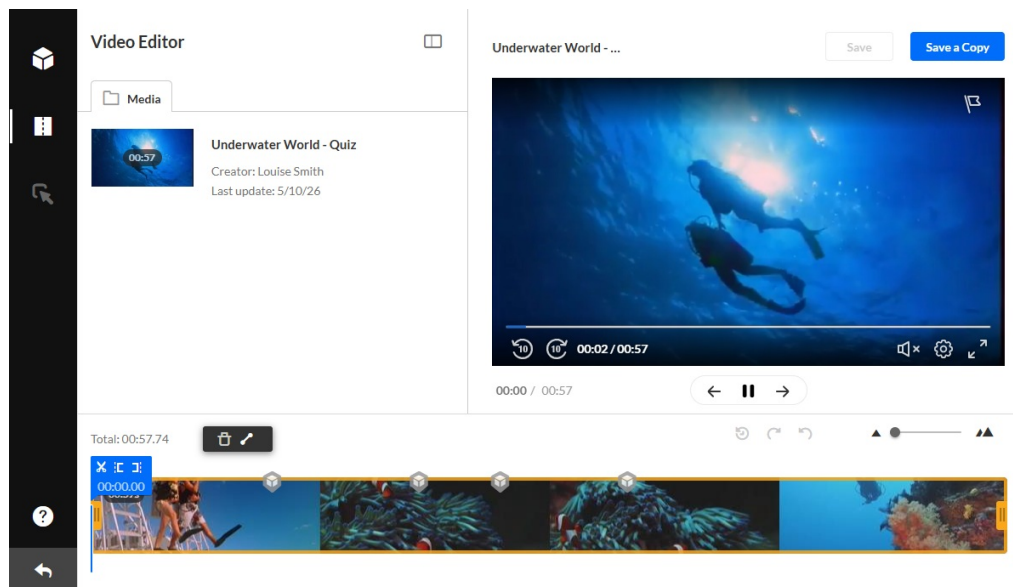

The steps for accessing the quiz editor vary depending on the Kaltura application you're using. For instructions, see [How to launch Kaltura's quiz editor](#).

Create a copy

1. In the left navigation panel of the quiz editor, click the **video editor icon**.

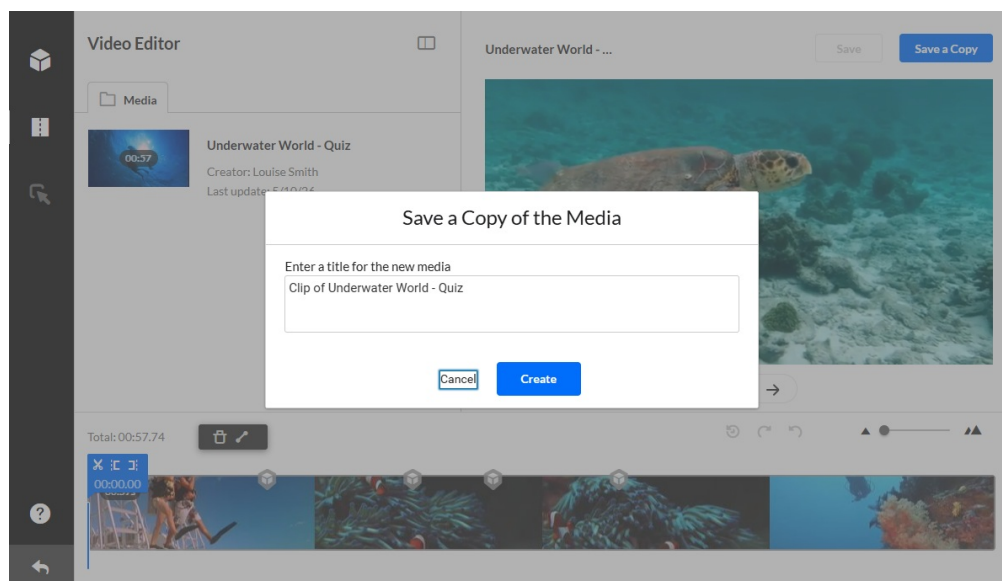

The Video Editor page opens.

2. Click **Save a Copy** at the top right.

A new window opens.

3. Enter a title.
4. Click **Create**.

A copy of the quiz is created as a new media entry.
