Why, when trying to add a collaborator, the person's name is not displayed in my selection list? (legacy)

Content updated: 10/19/2020

The person you are trying to add as a collaborator probably did not use Kaltura in the LMS yet. A user must click on a Kaltura tool in the LMS at least once, so that their name is populated in the Kaltura list, and they may be added as a collaborator.
