

# I am already using Kaltura for a while, how can I move to the new BSE?

Last Modified on 01/04/2021 6:30 pm IST

Install the new tool. Follow the instructions in the [Kaltura Video Extension for Brightspace by D2L Deployment Guide](https://knowledge.kaltura.com/help/kaltura-video-extension-for-brightspace-by-d2l-deployment-guide) (<https://knowledge.kaltura.com/help/kaltura-video-extension-for-brightspace-by-d2l-deployment-guide>) that pertain to the BSE feature. You will need to deploy the Kaltura BSE plugin (Steps 1 and 2) in the “[Deploying the Kaltura Tools](https://knowledge.kaltura.com/help/kaltura-video-extension-for-brightspace-by-d2l-deployment-guide-deployment-instructions)” (<https://knowledge.kaltura.com/help/kaltura-video-extension-for-brightspace-by-d2l-deployment-guide-deployment-instructions>)” section.
