

How do I set “My Subscriptions” on the Home Page?

Last Modified on 04/02/2021 10:29 pm IDT

In the [Kmsapi](https://knowledge.kaltura.com/help/kmsapi) (<https://knowledge.kaltura.com/help/kmsapi>) module, set the showMySubscriptionSection to Yes.

You can choose the “My Subscriptions” on Home Page to show a Subscribed Channels view (default), OR turn showEntriesInMySubscriptionSection to yes, too display the subscribed media feed instead (The Subscribed Media feed includes all the media from all your subscribed channels.)
