Embed Kaltura media in Brightspace (legacy)

Content updated: 10/29/2020

This article is designated for all users.

About

The Browse, search and embed (BSE) tool lets you easily search through My media, Media Gallery, Shared Repository, and playlists, and embed them on your page.

You can embed media in rich-text areas like Announcements, Forums, and Assignments, making it easy to add or repurpose media wherever you can publish text.

Key features of the BSE tool

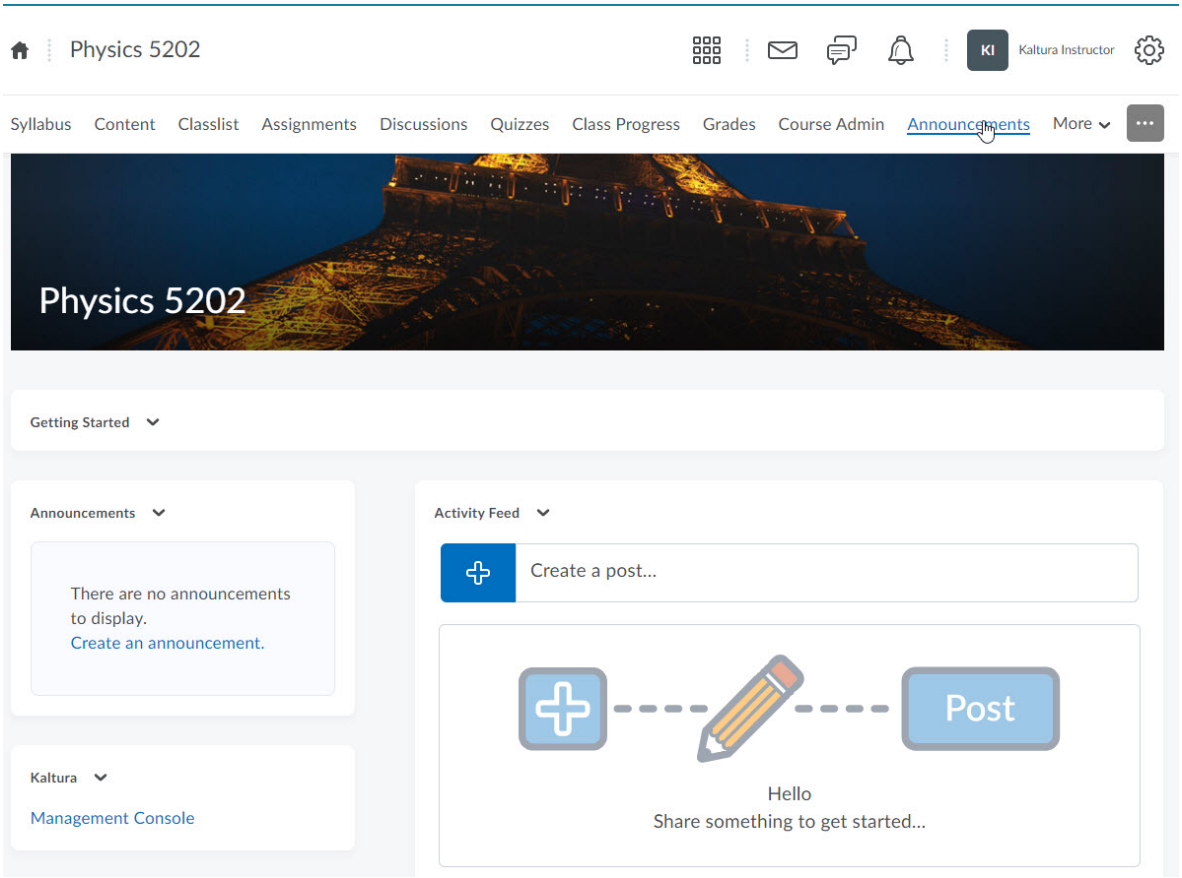

- Upload videos directly from My Media to a course or lesson.
- Add Media Galleries or Playlists to your course.
- Embed single videos or playlists with ease.
- Automatically integrate video quiz results into your grade book.
- Embed media anywhere you can publish text, such as announcements or forums.

The Browse, Search and Embed tool is set up by your system administrator in the Browseandembed module.

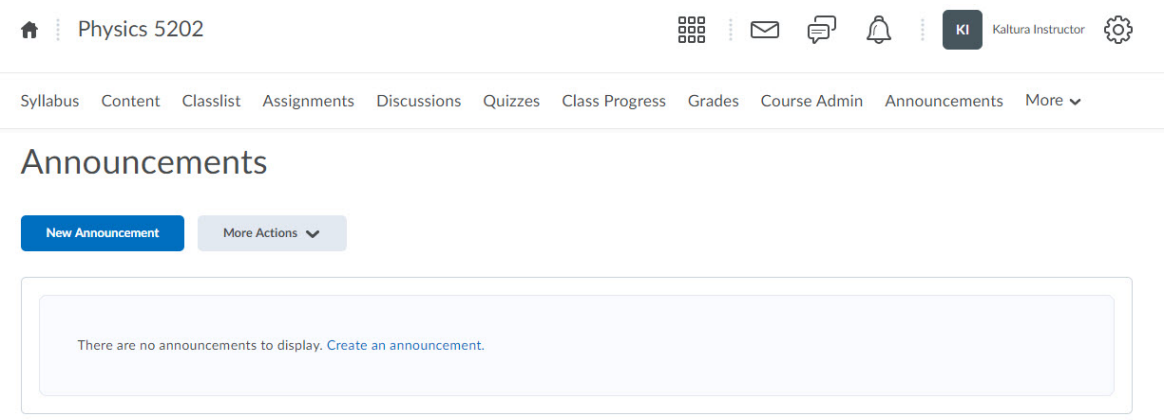

How to embed Kaltura media

1. Go to any content area where a rich-text editor is available (for example, **Announcements**).

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

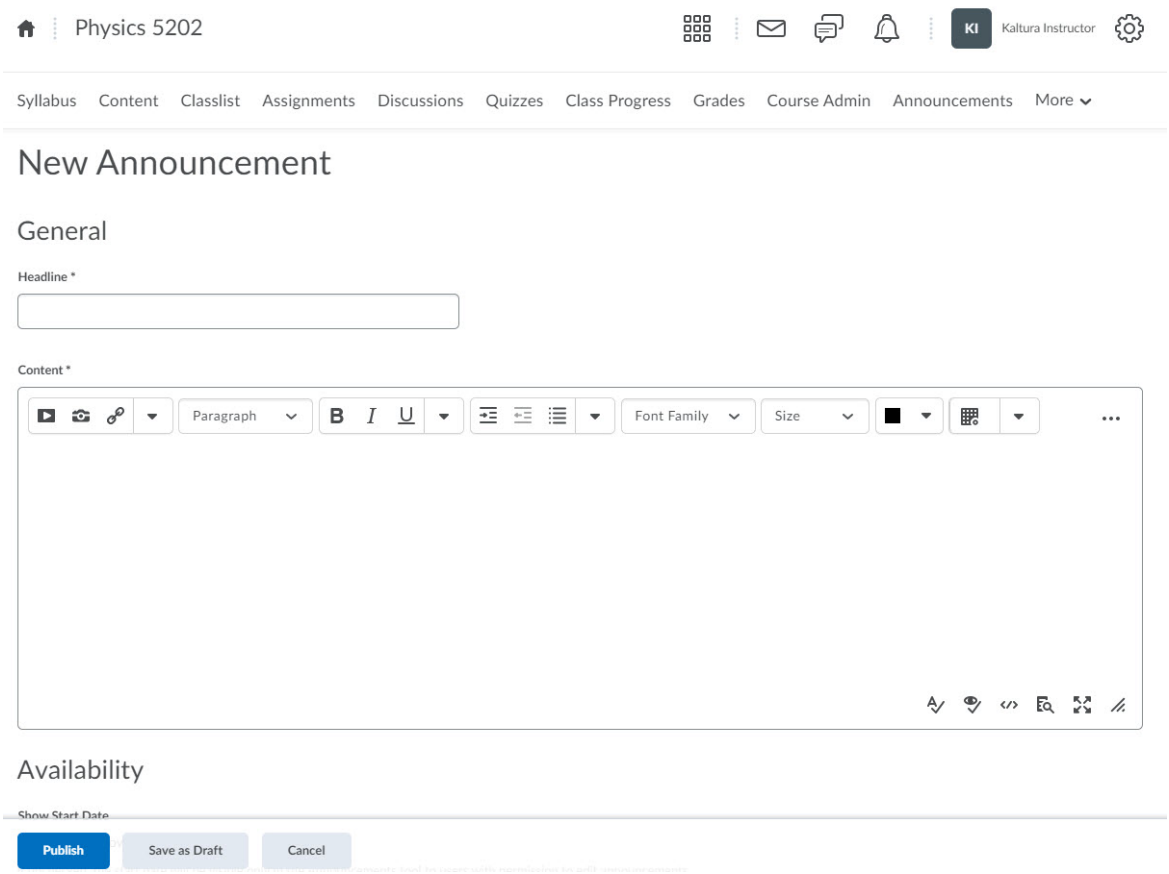

The page associated with that menu item displays.

2. Click the button to add new content.

   The rich-text editor displays.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

3. Click the **Insert Stuff** button (**arrow icon**).

   The Insert Stuff window displays.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

4. Scroll down and click on **Kaltura Browse Search & Embed**.

   The Embed Kaltura Media window displays.

   You can either add new media or select from existing media.

   Note: In order to embed Media Gallery Playlists,

- Your Administrator must enable the channelplaylists module
- Your Administrator can (optionally) set a dedicated playlist player, and
- The Course Owner must create a Media Gallery Playlist.

Add new media

1. Choose the appropriate source (for example, My Media, Media Gallery, Shared Repository, or Media Gallery Playlists). The Kaltura Media Search is available in every tab.

2. Click the **+ Add New** button to see the list of options for adding media. See 'Add New' menu for more information.

3. After upload is complete, you change the embed settings by clicking on the settings icon ⚙ .

Access to change the embed settings depend on your site's configuration. If

configured, you can select different players and player sizes that have been pre-configured by your system administrator for the type of media you choose to embed.

4. Click the **Save and Embed** button.

If your admin has configured required metadata fields (like Tags or Description), you'll need to complete them before the **Save and Embed** button becomes available.

Select from existing media

1. Choose the appropriate source (for example, My Media, Media Gallery, Shared Repository, or Media Gallery Playlists). The search field is available in every tab.

2. For the desired menu item, you change the embed settings by clicking on the settings icon ⚙ . Access to change the embed settings depend on your site's configuration. If configured, you can select different players and player sizes that have been pre-configured by your system administrator for the type of media you choose to embed.

3. Click the **</>Embed** button.

After media has been added or selected, you can:

- type a topic title.
- choose where to post this media.
- add attachments.
- make additional configurations related to posting time, comments, podcasts, and likes.

4. Click **Save**.

Currently, thumbnail embed is not available with the new v7 Kaltura player
