

What is the impact of the source file removal?

Last Modified on 01/12/2021 2:38 pm IST

In case the video source file is removed, the following features might be affected:

Feature	Supported
Download media	Yes (admins may enable non-source flavor assets for download)
Playback with adaptive bitrates	Yes
Clipping and Trimming	No (greyed out in Editor)
Re-transcoding	No
Replacement of Video	Yes (it will create a new source flavor and add all other flavors)
Create a Quiz	Yes
Hotspots	Yes
Manual thumbnail selection (KMC, KMS, KAF)	Yes
Autogenerate new thumbnail (KMS, KAF)	Yes

 If the source file is not streamed, the Kaltura player will play the rest of the available flavor assets and video playback should not be affected.
