

# What is the impact of the source file removal?

Last Modified on 01/12/2021 2:38 pm IST

In case the video source file is removed, the following features might be affected:

Feature	Supported
<b>Download media</b>	Yes (admins may enable non-source flavor assets for download)
<b>Playback with adaptive bitrates</b>	Yes
<b>Clipping and Trimming</b>	No (greyed out in Editor)
<b>Re-transcoding</b>	No
<b>Replacement of Video</b>	Yes (it will create a new source flavor and add all other flavors)
<b>Create a Quiz</b>	Yes
<b>Hotspots</b>	Yes
<b>Manual thumbnail selection (KMC, KMS, KAF)</b>	Yes
<b>Autogenerate new thumbnail (KMS, KAF)</b>	Yes

**NOTE:** If the source file is not streamed, the Kaltura player will play the rest of the available flavor assets and video playback should not be affected.
